Notes:
Statute XII applies to: (a) professors, readers and associate professors or lecturers; (b) any employee of the University who is a member of the Universities Superannuation Scheme or who would be a member if he or she had not been exempted under the provisions of Statute XIV. In Statute XII (www.admin.ox.ac.uk/media/global/wwwadminoxacuk/localsites/councilsecretariat/congregation/Statute_XII_(as_approved_by_Congregation_on_31_May_2016_subject_to_the_approval_of_Her_Majesty_in_Council.pdf), any reference to ‘a member of the academic staff’ is a reference to a person to whom the statute applies.

College staff are not covered by Statute XII as colleges have their own statutes. The exception is college staff at Kellogg and St Cross, which follow the University’s statutes.

Any staff holding joint appointments will, however, be covered by Statute XII in respect of their University contract of employment and duties.

It is expected that candidates for election to represent one of the six constituencies will also be members of the relevant constituency (ie a member of one of the divisions, GLAM or UAS).

Members of the Pool will be chosen by lot to serve on a number of Panels under Statute XII (ie Redundancy Panel (Section 14 (6)), Staff Employment Review Panel (Section 35) and University Appeal Panel (Section 52 (2))) and may be expected to also chair a Panel. Each member of the Pool will be required to attend appropriate training, including on equality and diversity, before serving on a Panel.

Full details of the Pool's composition and the functions and powers of the Panels can be found in Supplement (1) to Gazette No 5149, vol 147. For further information about the Pool, please contact Ms Sarah Thonemann, Personnel Services (sarah.thonemann@admin.ox.ac.uk).

UK Brain Bank for Autism and Related Developmental Research, JR
The developing brain is altered in autism but neuroscientists do not know how or why. Research is needed to understand the causes and biological basis of autism, to develop better interventions to improve the lives of those directly affected by it. Such critical research is hindered by the scarcity of donated human brain tissue. Control tissue, donated by people who do not have autism, is needed for comparison just as much as donations by people who do - and the NHS organ donor scheme does not include brain donation. We particularly want younger people to consider making a pledge to donate their brain after death (the further the brain is from its inception, the more difficult it is to understand the process of its development, so we do not take donations from people over 65 not directly affected by autism). See www.brainbankforautism.org.uk for information and to register as a donor.
