Council and Main Committees

Council of the University

Changes in Regulations
Council has made the following changes to regulations, to come into effect on 26 January.

Regulation changes relating to the University’s bond

Explanatory Note

As reported in the Vice-Chancellor’s communication to all staff of 1 December 2017 and on the Staff Gateway (www.ox.ac.uk/staff/news-listing/2017-12-01-oxford-builds-future-its-first-bond-issue), the University has issued a bond. The capital from the bond will initially be invested by Oxford University Endowment Management and overseen by Council’s Investment Committee.

Following that, a mechanism is needed to ensure that the funds are used only to further the University’s mission and make a sufficient financial return, so that the full benefit can be taken from the bond and the interest charges can be met. Given the importance of achieving this, Council has decided to charge the Finance Committee with the task of recommending to Council whether it is appropriate to draw down the capital for particular purposes. This will ensure that Council can be satisfied that there is sufficient independent oversight of the proposals that come to it. The proposed structure is illustrated in the table below.

The Finance Committee will recommend to Council the apportionment of capital resources between an allocation for strategic capital investment and a budget for the annual rolling capital programme. The capital programme (which is determined following the conclusion of the annual planning round) will then be divided between the Finance Committee advised by a new group, the Strategic Capital Steering Group (SCSG), on the one side, and the Planning and Resource Allocation Committee (PRAC) advised by the Capital Steering Group (CSG) on the other. The former will be responsible for strategic investment funded from the strategic capital allocation (including the bond), and the latter for smaller capital projects of up to £15m funded from the budget for the rolling capital programme.

With regard to the draw-down of the funds from the strategic capital allocation to spend on strategic investments on the University’s physical estate and other academic resources, the Finance Committee (advised by the SCSG) will make recommendations to Council, which will decide whether or not to authorise the draw-down.

The membership of the Finance Committee currently consists of seven members: the Vice-Chancellor (chair); four externals appointed by Council, at least two being members of Council; one person appointed by Council from among the members of Council elected by Congregation; and a head of house appointed by Conference of Colleges. Its membership is to be augmented by an additional elected member of Council and its terms of reference have been reframed so that none of its members are also heads of division or associate heads of division (or equivalent). Heads of division will be invited to attend the meeting as business requires. The SCSG will be chaired by the Pro-Vice-Chancellor (Planning and Resources) and its members will otherwise be the Pro-Vice-Chancellors for Education and Research and Innovation, the heads of division, two external members and the Director of Finance. The Director of Estates would be in attendance.

As part of its work in advising the Finance Committee, the SCSG is authorised to spend up to £5m on developing proposals for projects that come within its remit. So that funds are not spent on preparatory work for projects that are unlikely to be approved, SCSG will be required to seek approval from the Finance Committee for preparatory expenditure of over £1m on any project within its remit. That parallels the similar delegation given by Council to PRAC and recorded in its Standing Orders.

Liaison is provided for in the draft terms of reference of the SCSG and PRAC to ensure that the two programmes are properly coordinated. That would also be facilitated by both SCSG and PRAC being chaired by the Pro-Vice-Chancellor (Planning and Resources) and serviced by officers of the Planning team.

No changes are envisaged to the management of the IT capital programme.

Text of Regulations

1 In the Financial Regulations (Council Regulations 1 of 2010), delete regulation 1.5 (2), concerning financial limits to authorise expenditure commitments, and substitute (new text underlined, deleted text struck through):

(2) Financial Limits to Authorise Expenditure Commitments

Tables B, C, D, E, and F and G below summarise the upper internal limits on authority to commit to levels of expenditure (in contract or otherwise). Table B sets out those limits in respect of non-capital departmental expenditure (the rules concerning the authorisation and approval of research projects are set out in regulation 4.1.) Tables C, D and E set out limits in respect of capital expenditure together with reporting requirements. Table E sets out the limits applicable to investment decisions and Table F the limits applicable to the financial write-off of bad debts.

** For UAS capital projects, the Budget Subcommittee of PRAC is required to receive all proposals for review. University capital funding is defined as those funds set out in the University’s Capital Plan submitted to PRAC and includes funds from the Press and HEFCE as well as the University Capital Fund.

*** The Property Management Subcommittee of PRAC has a delegated authority level for sales and purchases involving amounts of up to £2m that are for property not held as an investment and are unrelated to capital projects.

**** The IT Capital Budget is determined on a three-year rolling basis by Council on the recommendation of PRAC. In respect of the IT capital budget, CSG’s role is to support PRAC in the development of the overall capital budget, of which the IT capital budget is part, but not to make recommendations on individual projects within the IT capital budget. The respective roles of IT Committee, Capital Steering Group and PRAC in respect of the IT capital budget are set out in the regulations governing those committees.
