

Course Information Sheet for entry in 2024-25: MSc in Sleep Medicine

Course facts

Mode of study	Part Time Only
Expected length	24 months

About the course

As a student on the MSc in Sleep Medicine, you will spend two years engaging in a comprehensive taught programme covering the physiology of sleep, through to clinical practice and societal implications.

Delivery of this course is mostly online, with a one-week residential component. You will engage regularly in real time with classmates and teaching faculty. This will culminate in the submission of a dissertation. You may also wish to consider the related two-year PGDip in Sleep Medicine.

Structure and content

The MSc is a part-time course, spread over two years. During that time you will complete eight modules, providing a comprehensive overview of sleep medicine that is in line with the European Sleep Research Society's teaching and training guidelines. These modules include:

- The Physiological Basis of Sleep
- Introduction to Sleep Medicine and Methodological Approaches
- Circadian Rhythm Disruption and Sleep
- Insomnias
- Sleep Disordered Breathing and Sleep-related Movement Disorders
- Hypersomnias and Parasomnias
- Sleep in Specialist Populations
- Sleep and Society.

You will also have to complete two modules in research methods, which will support you as you work on your dissertation.

Pattern of teaching and learning

The course is designed to give as much flexibility as possible, whilst still providing necessary support and community. Lectures are pre-recorded and sent for you to watch in your own time, alongside any relevant reading, case studies and activities.

You will join regular discussion groups. These are run using conferencing software, allowing you to interact in real-time with classmates and teaching faculty and will typically last 90 minutes. For these sessions you will be expected to prepare short essays and/or presentations for discussion.

You will need a computer (Windows or iOS), webcam and microphone for this course. You will also need to ensure appropriate internet connection. The recommended bandwidth for the software is 1Mbps.

Supervision

For the purposes of the dissertation you will be assigned a dissertation supervisor, who you will meet with as and when necessary. You will also be expected to attend a week-long residential school in person at Oxford. A significant component of the course involves self-directed learning to build on taught materials.

The allocation of graduate supervision for this course is the responsibility of the Sleep and Circadian Neurosciences Institute/Nuffield Department of Clinical Neurosciences and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Sleep and Circadian Neurosciences Institute/Nuffield Department of Clinical Neurosciences.

Assessment

Modules will be assessed through a mixture of extended written essays, online exams and oral examinations, which will include presentations.

Throughout the course you will be expected to work on your dissertation, which is the final piece of coursework, to be submitted at the end of the course. This will take the form of a systematic review and a research study design, including

ethical considerations and budgeting. To support this process you will also have to complete two modules in research methods.

Changes to this course

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after you commence your course. These might include significant changes made necessary by any pandemic, epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Costs

Annual fees for entry in 2024-25

The annual course fee differs depending on whether you enter the MSc directly, or whether you first complete the PGDip in Sleep Medicine, as shown below.

Annual fees for students entering the MSc directly

Fee status	Annual Course fees
Home	£13,430
Overseas	£18,000

Annual fees for students entering the MSc after completing the PGDip in Sleep Medicine

Fee status	Annual Course fees
Home	£9,480
Overseas	£13,430

Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

Students will need a computer (Windows or iOS), webcam and microphone. Students will also need to ensure appropriate internet connection. The recommended bandwidth for the software is 1Mbps. It is necessary that students attend a one week residential school at the University of Oxford. The course will subsidise economy travel and basic accommodation at an Oxford College up to a maximum of £1000. Costs above and beyond this will need to be met by the students. As part of your course requirements, you will need to choose a dissertation topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses and research expenses. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for 2024-25 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs for one month

	Lower range	Upper range
Food	£315	£495
Accommodation	£745	£925
Personal items	£190	£320
Social activities	£40	£95
Study costs	£35	£85
Other	£20	£35
Total	£1,345	£1,955

Likely living costs for nine months

	Lower range	Upper range
Food	£2,835	£4,445
Accommodation	£6,705	£8,325
Personal items	£1,710	£2,880
Social activities	£360	£855
Study costs	£315	£765
Other	£180	£315
Total	£12,105	£17,595

Likely living costs for twelve months

	Lower range	Upper range
Food	£3,780	£5,940
Accommodation	£8,940	£11,100
Personal items	£2,280	£3,840
Social activities	£480	£1,140
Study costs	£420	£1,020
Other	£240	£420
Total	£16,140	£23,460

When planning your finances for any future years of study at Oxford beyond 2024-25, it is suggested that you allow for potential increases in living expenses of 5% or more each year – although this rate may vary depending on the national economic situation.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of this document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
