THINKING OF DEFERRING ENTRY?
This is not always possible so we recommend you check with your course department first.
Oxford students are not only members of a college, but also members of a department with access to libraries and facilities. Depending on the course you choose, you would usually have your lectures and do any laboratory work in your department with students from other colleges. Open Days offer a rare opportunity to visit departments and meet tutors and current students as well as attend events. If events become full, priority will be given to prospective students.

VISITING COLLEGES

What is a college?
A college is an academic community, made up of academic and support staff, and students. If you study at Oxford you will live in college accommodation for your first year and often for other years of your course. You will have meals there, make friends, participate in sports and social activities and have access to libraries, bars and a range of support and welfare services.

Colleges are also where much of your teaching will happen, in small groups called tutorials run by tutors. You will have the chance to meet tutors today and if your application is shortlisted you will be interviewed by tutors in December. By visiting colleges, we hope you will begin to understand how the tutorial system works and why we think it’s a great way to learn.

What can I see or do today?
Most colleges will be offering a programme of talks, workshops and ‘Meet the tutor’ sessions (see pages 10–12 for details). All offer tours, where current students will be happy to show you around and answer your questions about studying here and about student life at their college.

Please be aware that many tutors are dividing their time between departments and colleges during the Open Days and their availability cannot be guaranteed. Please look out for details posted within the colleges or ask staff or students for more information.

How do I decide?
The first thing you need to look at is which colleges offer the course you would like to apply for, by checking this table. Please be aware that you will get a high standard of teaching in any of the subjects a college offers. You might also like to consider:

- The size of the college
- The location of the college – is it in the heart of the city centre or a few minutes away? Is it near your department building, the park or the swimming pool?
- How old or new it is
- Accommodation – how many years can you stay in college accommodation, where it is, how much it will cost
- Facilities – all colleges have a library, dining hall and common room but other resources do vary
- Access – most colleges have facilities and accommodation for disabled students; however, given the age of the buildings, some areas of some colleges are not accessible for students with mobility issues. See page 3 for information on where to find out more about disability advice.

Don’t worry if you feel you have no strong preference for one college or another, visiting any of the colleges will give you a good idea of how the college system works.

Do I have to choose?
Not if you don’t want to. Many students make an ‘open’ application. This means they don’t name a college on their UCAS form and the University allocates the college which will consider them. Even if you do choose a college, you may not end up there. If a college is over-

subscribed, then candidates are reallocated elsewhere so many students are offered a place at the college they didn’t apply to.

Admissions talk/Q&A: These talks will cover the application process and what factors admissions tutors take into account during the selection process. This is likely to include advice on choosing a college.

Life at ‘this college’ talk: These talks may cover tutorials, which take place within colleges, but will probably focus on the non-academic side to student life. They are likely to include information on facilities, support and welfare networks and clubs and societies. They may also talk about the accommodation and meals provided by the college.

Meet the tutors: Your opportunity to meet tutors in your chosen subject, and ask them questions about the course in an informal setting.

Subject sessions: These sessions are offered by some colleges, and will usually be a short talk about a particular course delivered by a tutor, with an opportunity to ask questions.

Meet the students: Your opportunity to speak to current students, who will be able to answer questions on student life, provide information about their college or course and share their experiences.

Parents, carers and teachers talk/Q&A: These often run alongside events which are only available to prospective students. They will cover topics that are often of concern to parents, such as welfare support, finances and accommodation, as well as information on admissions.

Visiting colleges is a great way to get an understanding of what sets Oxford apart from other universities. Descriptions of the most common events are listed below. If events become full, priority will be given to prospective students.

Parents and carers are very welcome to our Open Days. We know that many of you will have taken the day off work and travelled a long distance to be here today, so we hope the advice below helps you make the most of your time in Oxford. We run a variety of events covering topics we think will be of particular interest to you. These include the talks listed below, as well as those taking place in colleges and departments (highlighted in the listings on pages 5–12.) You are also welcome to attend many of the other events listed but sometimes, if a room is full and prospective students might miss out, we will ask you to give up your place.

TALKS FOR PARENTS AND CARERS

Why not come and have some of your own questions answered at the Open Day Information Centre? Staff and students will share their knowledge and experiences of our admissions process and aspects of life at Oxford.

Supporting the transition to university
When: 11:00–11:30
Where: Room 6, Ground Floor, Examination Schools

How can you help your child successfully make the transition from school to university? Our support and welfare team will advise on supporting students during this challenging time as well as explaining the wide range of welfare services offered by the University to all its students. Questions will be welcome.

Oxford applications: key information for parents and carers
When: 12:00–12:30
Where: Room 6, Ground Floor, Examination Schools

As well as answering your questions, we will explain our application timeline, highlighting deadlines and focusing on how you may support your child at each stage.

TOP TIPS

- Choosing a course is the most important decision for your child to make, so if they are not sure what they want to study, we suggest they focus on this. We advise all visitors to attend events in subject departments first and look around colleges later.

- Not every course is offered at every college so please check the table on pages 8–9 showing which courses are offered by which college before deciding which ones to visit.

- You don’t need to attend more than one admissions talk in the day. Oxford’s Common Framework for Admissions means that the admissions process is the same at every college and your child will have a similar chance of being successful with their application no matter which college they apply to.

- Be aware that you are unlikely to have enough time to visit as many colleges as you might like – even visiting one or two will give you a good idea how college life here works.
Colleges and departments are the best places to meet tutors, speak to students and find out all you need to know about the course you are interested in and about studying at Oxford. However, if you’ve still got any questions, or if the event you planned to attend is full, then please come to the Open Day Information Centre where there will be information desks available all day.

Open 09:00–17:00, Examination Schools, 75–81 High Street, Oxford, OX1 4BG (map ref: ●)
