

List of Awards

Green Impact Awards

Working Towards winners announced by Becky Howe, President, Oxford University Student Union

Estates Services: University Parks

Estates Services: Wytham Woods

NDM Experimental Research Nurses

Nuffield Department of Primary Health Care Services

Radiobiological Research Institute

Saïd Business School - Executive Open Programmes

Old Road Research Campus Building (Labs: Working Towards)

Bronze Award winners announced by Professor William James, Pro-Vice-Chancellor (Planning and Resources)

Ashmolean Museum

Bodleian Libraries, Clarendon Building

Bodleian Storage Facility

Botanic Garden

Dunn School of Pathology

Faculty of Classics

Faculty of Linguistics, Philology & Phonetics

Isis Innovation

Manor Road Building

Bronze winners announced by Becky Howe, President, Oxford University Student Union

Modernising Medical Microbiology

MPLS Divisional Office

Old Road Campus Research Building

Radcliffe Science Library

School of Geography and the Environment

Sheldonian Theatre

St Anne's College

The Packaging and Delivery Service (PADS)

Silver Awards announced by Professor William James, Pro-Vice-Chancellor (Planning and Resources)

Bodleian Social Science Library

Department of Plant Sciences

Examination Schools

Osney One

Department of Materials (Labs Silver)

Faculty of Linguistics, Philology & Phonetics (Labs Silver)

Wolfson College

Gold Awards and presenters

- Professor Mark Pollard, Associate Head of Social Sciences Division (Research)
 - Blavatnik School of Government
 - School of Interdisciplinary Area Studies
 - The Language Centre
- Professor Donal Bradley, Head of the Mathematical, Physical and Life Sciences (MPLS) Division
 - Department of Chemistry: department and laboratories gold
 - Mathematical Institute
 - Earth Sciences: department and laboratories gold
 - Department of Materials: department gold and laboratories silver
- Professor Alastair Buchan, Dean of Medicine and Head of Medical Sciences Division
 - Modernising Medical Microbiology
 - Estates Services: The Malthouse
 - Finance Division

- Jason Partridge, Research Archive Assistant from Bodleian Digital Library
- Rob Bryant, Facilities Manager from Plant Sciences

Green Impact Student Award 2016 presented to **Joanna Trewern**, School of Geography and the Environment, by Alan Rusbridger, Principal of Lady Margaret Hall.

Runners up were:

- Zoe Goodwin for her work with Green Impact teams from the Department of Plant Sciences and Wolfson College
- Andre Naumann for his work with the Blavatnik School of Government Green Impact team

Student Switch Off Award *presented by Vice-Chancellor Professor Louise Richardson*
St Peter's College, Oxford

Carbon Innovation Award *presented by Justin Kelly, Business Development Director at Siemens, and Doctor Nick Eyre, Jackson Senior Research Fellow in Energy, and Leader, ECI Energy Programme*

The winning project aims to develop a Variable Air Volume (VAV) system that sets the minimum fan speed for the Chemistry Research Building's eight laboratory exhaust stacks based on local wind conditions. The following members of the project team received awards: David Moore, MSc Environmental Change and Management, William Darby, MEng Materials Science, Seth Collins, MSc Environmental Change and Management, and Aven Satre Meloy, MPhil Geography and the Environment.

Vice Chancellor's Social Impact Award *presented by Vice-Chancellor Professor Louise Richardson*

Minerva Lim (Keble College, BA History)

Minerva has played a key role as project coordinator of LinkAges, a student led intergenerational volunteering project that tackles loneliness in older people. She has set up and coordinated two new befriending schemes, which have since paired up approximately 50 students and older people. She has also held the position of International Students' Officer at OUSU (Oxford University Student Union), where she has fostered a stronger international student community by building college networks, raising awareness of issues faced by international students and running more frequent socials.

John Latham (St Catherine's College, MSc Cognitive Behavioural Therapy)

John used his own experiences in developing One-Eighty, an Oxford-based charity providing psychology-focused behaviour support for vulnerable children and young people, pioneering Cognitive Behaviour Therapy within families. The charity now reaches 681 families each year and has extended its success to Buckinghamshire and West London. John has also provided over 1,500 health service users with a voice through his work with Healthwatch Oxfordshire, and continues to play an active role as a volunteer running the Friends of the Young Deaf programme with Oxfordshire Deaf Children's Society.

Philipp von der Wippel (St John's College, BA PPE)

Philip spent his year before university developing ProjectTogether, a volunteer-run coaching service for young people, encouraging them to start new social projects and engage in civil society. The project has supported over 250 young people and has a team of over 100 coaches. In the last few months the project has expanded to Spain and Belgium and Philipp hopes to scale ProjectTogether on a European level.

Makena Lohr (Hertford College, Human Sciences)

As President of Oxford Hub, Makena has championed student social action amongst the wider student body, encouraging students to tackle issues that move them, both now as students and later as future citizens. Besides volunteering for a wide range of environmental groups and campaigns, Makena was a founder of Project SOUP, a micro-funding initiative that uses food waste to raise

money for local projects. The initiative has supported seven projects and brought students and community members together to tackle local issues.

Sustainable Photographer of the Year 2016

Student Sustainability Photographer of the year 2016: **Ainslie Johnstone**, DPhil Clinical Neuroscience, St John's College

Staff Sustainability Photographer of the year 2016: **Sue Henderson**, Executive Assistant, Chemistry Department
