The University has a sitewide licence, so it is freely accessible to anyone with an [ox.ac.uk](mailto:ox.ac.uk) email address. Find out more about ResearchProfessional.com, including user guides and training sessions, on the Research Services website ([www.admin.ox.ac.uk/researchsupport/findfunding/rp](http://www.admin.ox.ac.uk/researchsupport/findfunding/rp)).

##### UK Brain Bank for Autism and Related Developmental Research, JR

**The developing brain is altered in autism** but neuroscientists do not know how or why. Research is needed to understand the

causes and biological basis of autism, to develop better interventions to improve the lives of those directly affected by it. Such critical research is hindered by the scarcity of donated human brain tissue. Control tissue, donated by people who do not have autism, is needed for comparison just as much as donations by people who do - and the NHS organ donor scheme does not include brain donation. We particularly want younger people to consider making a pledge to donate their brain after death (the further the brain is from its inception, the more difficult it is to understand the process of its development, so we do not take donations from people over 65 not directly affected by autism). See [www.brainbankforautism.org.uk](http://www.brainbankforautism.org.uk) for information and to register as a donor.

#### Research participants sought

**Do you have a history of type 2 diabetes and heart disease?** If you have type 2 diabetes that is not well controlled, and if you have a history of heart disease or stroke, you may be eligible to participate in a clinical research study investigating a medication for type 2 diabetes in people with heart disease.
