

## Course Information Sheet for entry in 2018-19

### DPhil in International Development

#### About the course

The DPhil in International Development provides an opportunity for outstanding students to pursue in-depth multi- and interdisciplinary research, guided by leading scholars in the field, into processes of social, political and economic development and change in the global South.

Academics at the Oxford Department of International Development (ODID) can offer supervision in a wide range of subjects, including economic growth and structural transformation, macroeconomics and public finance, changes within firms and households, poverty and inequality, insecurity and conflict, the history of social and political change, migration and refugees, global governance and the environment, children and human development, and technology and industrialisation. The department also has close connections with other departments and research centres across the University.

As a DPhil student you will undertake your own original research project under the guidance of your supervisor, with whom you will typically meet at least two to three times a term. The supervisor will help develop and guide your project and, at later stages, provide feedback on chapter drafts. However, you will work to a significant extent on your own, and you will need a high level of motivation and self-discipline.

You will be admitted initially as a Probationer Research Student (PRS), transferring to full DPhil status by the end of your first year. During the probationary period, you will develop and begin work on your thesis topic. You will be offered training in relevant research methods, language, computing and other skills, and have the opportunity to attend lectures, seminars and classes in your general topic area.

As a PRS you will take one taught course, either in research methods or from an Oxford master's degree relevant to your research, on which you will be examined at the end of the first year. You must pass this course with a strong performance in order to transfer from PRS status to full DPhil status. You also need departmental approval of a fully developed research plan, which you will present in your transfer paper to two assessors approved by the department's graduate studies committee.

You are expected to be resident in Oxford for the PRS period. Once the transfer is complete, you may leave Oxford for up to three terms in order to conduct fieldwork, if the project requires. You will then continue the course by carrying out your own research under the guidance of your supervisor, with whom you will continue to meet or correspond with regularly. You should return to Oxford after fieldwork for at least three terms.

Assessment of progress will be made during these sessions with your supervisor and also in more formal *viva voce* meetings – for the Transfer of Status (usually at the end of the first year) and for Confirmation of Status (usually at the end of the third year). More information on these two meetings can be found in the course handbook on the ODID website.

As a PRS you will normally be expected to complete your degree in a period of three years plus up to one year of fieldwork (if needed). Students who transfer to the DPhil after the MPhil in Development Studies are expected to complete in two years plus time needed for fieldwork: they are also expected to be resident in Oxford for part of this time. Further information on the structure can be obtained from the course handbook.

#### Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

#### Expected length of course

3 to 4 years

## Costs

### Annual fees for entry in 2018-19

Fee status	Tuition fee	College fee	Total annual fees
Home/EU (including Islands)	£8,975	£3,112	£12,087
Overseas	£18,620	£3,112	£21,732

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2018-19 is £468, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

### Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. Most students will choose a topic which will require them to do fieldwork for their thesis. This will usually be done after transferring status from Probationer Research Student to DPhil status. Students should note that they will have to meet all costs of fieldwork themselves and these costs are likely to include travel and related costs such as visas, accommodation, subsistence, translation and research assistant services if required. These costs will vary according to the location and length of the fieldwork and the department estimates that these costs may range from £1,500 to £20,000. Each DPhil student is able to apply for a fieldwork grant of £700. This is awarded once only. Students who have fieldwork grants from ESRC are not able to apply. Further information will be provided in the course handbook. You may also be able to apply for small grants from your college to help you cover some of these expenses.

## Living costs

In addition to your tuition and college fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2018-19 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£258	£361	£2,318	£3,245	£3,090	£4,326
<b>Accommodation</b>	£536	£677	£4,824	£6,093	£6,432	£8,124
<b>Personal items</b>	£118	£263	£1,066	£2,364	£1,421	£3,152
<b>Social activities</b>	£41	£123	£369	£1,105	£492	£1,474
<b>Study costs</b>	£39	£85	£348	£765	£464	£1,020
<b>Other</b>	£22	£47	£202	£419	£269	£559
<b>Total</b>	£1,014	£1,556	£9,127	£13,991	£12,168	£18,655

When planning your finances for any future years of study at Oxford beyond 2018-19, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).
