

## Course Information Sheet for entry in 2018-19

### DPhil in Population Health

#### About the course

The DPhil in Population Health is a doctoral research programme intended to provide you with training in research, an in-depth knowledge and understanding of your doctoral research topic and will prepare you for a career in academia.

Applicants are strongly advised to visit the Medical Sciences Graduate School website to help them identify the most suitable course and supervisors.

#### Structure, content and assessment

You are admitted to the status of Probationer Research Student (PRS) in the first instance and you will then seek transfer to DPhil status by the end of your fourth term after admission. Confirmation of status will usually be carried out in the eighth term after admission as a research student, and no later than the ninth term. Both transfer and confirmation of status will require an oral assessment. Having successfully confirmed your status you will then be able to apply for the appointment of examiners, submit your thesis and complete the *viva voce* examination.

#### Part-time study

A small number of part-time students may be admitted to the DPhil in Population Health. Candidates applying for admission to this part-time course are required to show that their DPhil research topic is suited to part-time study and the supervisor agrees with the part-time schedule.

The attendance requirement will be a minimum of 30 days University-based work per year. This will be spread across the academic year with a minimum of ten days based in the department each term.

However, attendance is likely to be higher and will be determined by the demands of the individual DPhil research project and will be agreed with the candidate at interview.

#### Pattern of teaching, learning and supervision

Research training will primarily be through day-to-day involvement in a research project and working with a research team. Your supervisors will be the main source of your research training; you will also be encouraged to strengthen your research skills by taking relevant taught courses. Research training will be within a multidisciplinary research environment which includes epidemiology, statistics, ethics, health economics, health promotion, health services research, law and big data.

You will be encouraged to make use of the range of skills training offered by the Medical Sciences Division through your study at Nuffield Department of Population Health (NDPH). These include statistics, data management, research ethics, writing academic papers and presentation skills. You are also expected to identify additional relevant courses that will support your research training.

#### Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

#### Expected length of course

##### Full time

3 to 4 years

##### Part time

6 to 8 years

## Costs

### Annual fees for entry in 2018-19

#### Full-time study

Fee status	Tuition fee	College fee	Total annual fees
Home/EU (including Islands)	£4,260	£3,112	£7,372
Overseas	£19,915	£3,112	£23,027

#### Part-time study

Fee status	Tuition fee	College fee	Total annual fees
Home/EU (including Islands)	£2,130	£1,556	£3,686
Overseas	£9,958	£1,556	£11,514

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2018-19 is £468, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

### Additional cost information

#### Full-time study

All graduate students in the department are expected to provide their own laptop. This is estimated to cost approximately £600. No bursaries are available from the department for this, however, a loan laptop may be available if it is not possible for students to provide their own equipment. Please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

#### Part-time study

All graduate students in the department are expected to provide their own laptop. This is estimated to cost approximately £600. No bursaries are available from the department for this, however, a loan laptop may be available if it is not possible for students to provide their own equipment. Please note that you are required to attend in Oxford for a minimum of 30 days each year, and you may incur additional travel and accommodation expenses for this. Also, depending on your choice of research topic and the research required to complete it, you may incur further additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

In addition to your tuition and college fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2018-19 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£258	£361	£2,318	£3,245	£3,090	£4,326
<b>Accommodation</b>	£536	£677	£4,824	£6,093	£6,432	£8,124
<b>Personal items</b>	£118	£263	£1,066	£2,364	£1,421	£3,152
<b>Social activities</b>	£41	£123	£369	£1,105	£492	£1,474
<b>Study costs</b>	£39	£85	£348	£765	£464	£1,020
<b>Other</b>	£22	£47	£202	£419	£269	£559
<b>Total</b>	£1,014	£1,556	£9,127	£13,991	£12,168	£18,655

When planning your finances for any future years of study at Oxford beyond 2018-19, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).
