

## Course Information Sheet for entry in 2023-24: MPhil in History of Science, Medicine and Technology

### About the course

This two-year programme offers a range of options drawing on the expertise of Oxford large community of scholars working in the history of science, medicine and technology. You may specialise in the history of science and technology or the history of medicine, although the boundaries between these areas are deliberately permeable.

The history of science, medicine and technology is a long-established discipline in Oxford. R T Gunther and Charles Singer were among the pioneers of the subject early in the twentieth century, and since the 1920s the Museum of the History of Science has housed an outstanding collection of scientific instruments and a fine specialist library. In the early 1970s, the creation of the chair of the history of science and the establishment of the Wellcome Unit for the History of Medicine gave the subject additional strength and allowed important new departures. The Oxford Centre for the History of Science, Medicine and Technology (HSMT) was created in 2017 in order to build on the teaching and research capacity of the numerous historians working on HSMT subjects in Oxford-based projects and in various museums, colleges and faculties.

The expertise of scholars in Oxford covers most of the main areas and periods of the history of science, medicine, and technology. A varied programme of seminars, lectures, and conferences enables graduate students to obtain knowledge of subjects beyond their chosen speciality and to meet visitors from elsewhere in Britain and abroad.

Teaching comprises:

- a course in Methods and Themes in HSMT, taught in classes during Michaelmas term, and reinforced by lectures on specific issues
- four advanced option courses, usually taught in small classes and mostly during Hilary term of both years.

Examples of the option courses are given on the Faculty website. Please note that not every optional subject listed may be on offer every year, depending in part on levels of student demand

If you wish to apply for the DPhil you will be encouraged to develop your doctoral proposal during the first few months of the second year of the programme, so that you will be well placed to make a doctoral application.

More information about the MPhil can be found in the course handbook.

### Supervision

The allocation of graduate supervision for this course is the responsibility of the Faculty of History and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Faculty of History.

An Oxford academic's pre-application indication of willingness to supervise an enquiring applicant is not a guarantee that the applicant will be offered a place, or that the supervisor in question has capacity in that particular year.

You should meet your supervisor early in Michaelmas term of year one, to identify training needs and agree a programme of research, meeting further during Michaelmas and Hilary terms to discuss progress, and be able to discuss at least one draft chapter with your supervisor in Trinity term of year one. You should then meet again in Michaelmas term of year two to review progress and agree a plan of work for the forthcoming year. You should meet regularly in Michaelmas and Hilary, and then meet to discuss a full draft of your dissertation in Trinity term for year two.

### Assessment

For the course in Methods and Themes in HSMT, formal assessment will be through a methodological essay. Assessment of the four advanced option courses is usually by two extended essays. Finally, you will produce a dissertation on a topic of your choice, approved by your supervisor, and submitted at the beginning of Trinity term in the second year of the programme.

### Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. These may include significant changes made necessary by a pandemic (including Covid-19), epidemic or local health emergency. For

further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

### Expected length of course

	Full Time Only
Expected length	21 months

## Costs

### Annual fees for entry in 2023-24

Fee status	Annual Course fees
Home	£15,410
Overseas	£31,540

### Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

### Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2023-24 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

### Likely living costs for one month
