

Course Information Sheet for entry in 2023-24: MSc by Research in Paediatrics

About the course

The MSc by Research in Paediatrics offers excellent opportunities for high quality research training, for both clinical and non-clinical graduates, in wide-ranging leading research areas. As a student you will spend up to three years in one of the department's many research groups, working on a project supervised by the group's principal investigator.

The Department of Paediatrics has major research interests in developmental immunology and haematology, infectious diseases of infancy and childhood, mucosal immunology, HIV infection and immune control, design, development and testing of vaccines, neuromuscular biology and gene therapy, the origins of childhood leukaemia, paediatric neuroimaging, and paediatric molecular genetics.

As a graduate student, you will conduct research within a department which has over 30 graduate students and 130 members of staff, including clinical practitioners, research scientists, support staff and academic visitors.

You will join one of our research groups with primary supervision provided by faculty members in one of the department's laboratory or clinical research facilities, and you will become part of a vibrant research community both within the department and in the wider University.

You will develop research skills by making use of a range of research training and skills development offered by the Medical Sciences Division, alongside direction by your supervisor in specific research methods in relation to your project. The first step in applying is to contact a potential supervisor or supervisors to discuss potential projects. This course does not contain any taught modules.

Supervision

The allocation of graduate supervision is the responsibility of the Department of Paediatrics and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Department of Paediatrics.

In the case of students who require specific help to adjust to an academic programme or to a new range of skills, the supervisor will work with them to ensure that they have additional support. The supervisor would meet with their student at least 3 times a term.

Assessment

You will begin your course as a Probationary Research Student (PRS) and near the end of your first year you will transfer to MSc by Research status. To transfer your status, you must apply formally, before the end of term four, submit a research report and statement of future research plans, and take an independent assessment by two assessors. Continuation in the programme is subject to the student passing the transfer of status exam. The final thesis assessment & oral examination would then occur before the end of the ninth term.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. These may include significant changes made necessary by a pandemic (including Covid-19), epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Expected length of course

	Full Time Only
Expected length	1 to 3 years

Costs

Annual fees for entry in 2023-24

Fee status	Annual Course fees
Home	£8,960
Overseas	£29,700

Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2023-24 is £572, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £600 per term. Please contact your college for more details.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2023-24 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs for one month

	Lower range	Upper range
Food	£300	£470
Accommodation	£715	£860
Personal items	£180	£305
Social activities	£40	£90
Study costs	£35	£80
Other	£20	£35
Total	£1,290	£1,840

Likely living costs for nine months

	Lower range	Upper range
Food	£2,700	£4,230
Accommodation	£6,435	£7,740
Personal items	£1,620	£2,745
Social activities	£360	£810
Study costs	£315	£720
Other	£180	£315
Total	£11,610	£16,560

Likely living costs for twelve months

	Lower range	Upper range
Food	£3,600	£5,640
Accommodation	£8,580	£10,320
Personal items	£2,160	£3,660
Social activities	£480	£1,080
Study costs	£420	£960
Other	£240	£420
Total	£15,480	£22,080

When planning your finances for any future years of study at Oxford beyond 2023-24, it is suggested that you allow for potential increases in living expenses of 5% or more each year – although this rate may vary significantly depending on how the national economic situation develops.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of the document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
