

Course Information Sheet for entry in 2018-19

MSc in Social Science of the Internet

About the course

The MSc in Social Science of the Internet is highly multidisciplinary, providing students from a wide variety of backgrounds with in-depth understanding of the social science concepts, theories and methods required to undertake rigorous empirical quantitative and qualitative research and policy analysis about the Internet.

The course aims to equip you with essential theoretical tools and methodological skills to apply social science to the study of the Internet. You are introduced to the empirical evidence necessary for an in-depth understanding of the role of the Internet in society, including the changing nature of governance and the theoretical, practical and ethical questions surrounding Internet use.

You will take a combination of core and option papers and produce a dissertation of up to 15,000 words on a topic of your choosing based on discussions with a dissertation supervisor. The dissertation provides you the opportunity to apply the methods and approaches you have covered in the other parts of the course and carry out a substantive piece of academic research.

During Trinity term, you will attend weekly seminars where you will present and develop your dissertation research and receive feedback from fellow students and academic staff. The MSc seminars also include brief talks from academics within the OII, the University and the greater academic community across the UK.

The MSc in Social Science of the Internet is offered on both a full time (1 year) and part time (2 year) basis. The degree and expectations for both modes of study are equally rigorous: part time students take their classes with the full time students, but spread over two years to accommodate work and personal circumstances. Whether you choose to apply for the part time or full time programme, you will be part of a close knit cohort of students from diverse backgrounds.

Additional cost information

Full-time study

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Part-time study

Please note that this course requires that you attend in Oxford for teaching, and you may incur additional travel and accommodation expenses for this. Further, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your tuition and college fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2018-19 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
