

Course Information Sheet for entry in 2026-27: MSc in Musculoskeletal Sciences

Course facts

Mode of study	Part Time Only
Expected length	2 years

About the course

This part-time, two-year taught MSc offers academic training to clinicians or biological scientists to advance their understanding of musculoskeletal disease, and the research methods used to improve our knowledge and treatments.

This is a biennial course and is designed to complement any graduate clinical teaching that you may be receiving as part of a specialist training programme. Completing the course will provide a firm foundation for students wishing to progress to full-time doctoral research.

Course structure

An overview of the course structure is provided below. Details of the compulsory elements of the course are provided in the *Course components* section of this page.

The course consists of five modules, studied part-time over two years. Short residential sessions will be delivered in Oxford.

Teaching methods include lectures, small group sessions, problem-based learning scenarios and evaluation of academic papers. In addition, you will be expected to undertake self-directed learning in your own time, to build on the information provided in the teaching sessions.

You will be encouraged to develop a range of transferable skills, including use of research software applications such as EndNote, written and oral communication skills, working as part of a team, using literature databases (such as PubMed, MedLine, Cochrane), data analysis, evaluation of scientific papers, research grant writing and critical reasoning. Skills courses run by the Medical Sciences Division will be highlighted and you will be encouraged to attend, where appropriate.

You will be allocated at least two academic advisors who will be responsible for your progress throughout the two-year programme.

Attendance

The course is part-time. Part-time students are required to attend course-related activities in Oxford for a minimum of 30 days each year.

Attendance at the University is required for short residential sessions of four to five days that take place eight times over the two years. There will be no flexibility in the dates of attendance and all compulsory teaching dates are provided prior to the start of the course.

Resources to support your study

As a graduate student, you will have access to the University's wide range of resources including libraries, museums, galleries, digital resources and IT services.

The Bodleian Libraries is the largest library system in the UK. It includes the main Bodleian Library and libraries across Oxford, including major research libraries and faculty, department and institute libraries. Together, the Libraries hold more than 13 million printed items, provide access to e-journals, and contain outstanding special collections including rare books and manuscripts, classical papyri, maps, music, art and printed ephemera.

The University's IT Services is available to all students to support with core university IT systems and tools, as well as many other services and facilities. IT Services also offers a range of IT learning courses for students to support with learning and research, as well as [guidance on what technology to bring with you as a new student \(https://www.it.ox.ac.uk/what-to-bring\)](https://www.it.ox.ac.uk/what-to-bring) at Oxford.

As a student on the course you will have access to extensive library facilities within Oxford, namely Girdlestone Memorial Library (located at Nuffield Orthopaedic Centre), the Cairns Library (based at John Radcliffe Hospital), the Knowledge Centre (at the Old Road Campus) and the Radcliffe Science Library (based at South Parks site).

The department has a very active student committee, which arranges social events for students.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Medical Sciences Division and the Nuffield Department of Orthopaedics, Rheumatology and Musculoskeletal Sciences (NDORMS) and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Medical Sciences Division.

It is recommended that students meet with their supervisors during the residential weeks. However this is not compulsory and the dates/frequency of these meetings are determined by mutual agreement between the student and supervisor.

Assessment

There are a number of formative and summative assessments throughout the two-year course which include literature review, two MCQ papers and two short answer question papers. In the final year, students are required to submit a research proposal in the form of a 'mock' grant application. In addition, throughout the course students will be required to give a number of formative and summative oral presentations.

Course components

Compulsory study

The five course modules are:

- Musculoskeletal Diseases: Scientific Principles
- Musculoskeletal Diseases: Applied Clinical Sciences
- Research, Statistics and Epidemiology
- Advanced Orthopaedics
- Advanced Rheumatology.

Changes to this course

The University will seek to deliver this course in accordance with the description set out in this course page. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. The safety of students, staff and visitors is paramount and major changes to delivery or services may have to be made if a pandemic, epidemic or local health emergency occurs. In addition, in certain circumstances, for example due to visa difficulties or because the health needs of students cannot be met, it may be necessary to make adjustments to course requirements for international study.

Where possible your academic supervisor will not change for the duration of your course. However, it may be necessary to assign a new academic supervisor during the course of study or before registration for reasons which might include illness, sabbatical leave, parental leave or change in employment.

For further information please see our page on [changes to courses \(//www.ox.ac.uk/admissions/graduate/courses/changes-to-courses\)](http://www.ox.ac.uk/admissions/graduate/courses/changes-to-courses) and the [provisions of the student contract \(//www.ox.ac.uk/admissions/graduate/after-you-apply/your-offer-and-contract\)](http://www.ox.ac.uk/admissions/graduate/after-you-apply/your-offer-and-contract) regarding changes to courses.

Costs

Annual course fees

The fees for this course are charged on an annual basis.

Fees for the 2026-27 academic year at the University of Oxford

Fee status	Annual Course fees
Home	£7,775
Overseas	£19,215

What do course fees cover?

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional information section below, course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional costs information below.

How long do I need to pay course fees?

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year fees will usually increase annually, as explained in the University's [Terms and Conditions \(//www.ox.ac.uk/students/new/contract\)](https://www.ox.ac.uk/students/new/contract).

Our [fees and other charges \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges\)](https://www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges) pages provide further information, including details about:

- [course fees and fee liability \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/courses-fees-and-liability\)](https://www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/courses-fees-and-liability);
- [how your fee status is determined \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/fee-status\)](https://www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/fee-status); and
- [changes to fees and other charges \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/changes-to-fees-and-charges\)](https://www.ox.ac.uk/admissions/graduate/fees-and-funding/fees-and-other-charges/changes-to-fees-and-charges).

Information about how much fees and other costs will usually increase each academic year is set out in the University's [Terms and Conditions \(//www.ox.ac.uk/students/new/contract\)](https://www.ox.ac.uk/students/new/contract).

Additional costs

Please note that this course requires that you attend 8 weeks in Oxford for teaching, and you may incur additional travel and accommodation expenses for this. Further, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs.

Living costs

In addition to your course fees and any additional course-specific costs, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

Living costs for part-time study

Your living costs may vary depending on your personal circumstances but you will still need to cover your cost of living on a full-time basis for the duration of your course, even if you will not be based in Oxford throughout your studies. While the range of likely living costs for a single, full-time student living in Oxford in the 2026-27 academic year is between £1,405 and £2,105 per month, living costs outside Oxford may be different.

Part-time students who are not based in Oxford will need to calculate travel and accommodation costs carefully. Depending on your circumstances and study plans, this may include the [cost of a visitor visa to attend for short blocks of time \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs\)](https://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs) (if [visitor visa eligibility criteria \(//www.ox.ac.uk/students/visa/before/visitors\)](https://www.ox.ac.uk/students/visa/before/visitors) are met).

Further information about living costs

The current economic climate and periods of high national inflation in recent years make it harder to estimate potential changes to the cost of living over the next few years. For study in Oxford beyond the 2026-27 academic year, it is suggested

that you budget for potential increases in living expenses of around 4% each year – although this rate may vary depending on the national economic situation.

A breakdown of likely living costs for one month during the 2026-27 academic year are shown below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford.

Likely living costs for one month in Oxford during the 2026-27 academic year

	Lower range	Upper range
Food	£315	£545
Accommodation	£825	£990
Personal items	£160	£310
Social activities	£50	£130
Study costs	£35	£90
Other	£20	£40
Total	£1,405	£2,105

For information about how these figures have been calculated as well as tables showing the likely living costs for nine and twelve months, please refer to the [living costs \(//www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs\)](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs) page of our website.

Document accessibility

If you require a more accessible version of this document please [contact Graduate Admissions and Recruitment by email \(graduate.admissions@admin.ox.ac.uk\)](mailto:graduate.admissions@admin.ox.ac.uk).
