

Theology and Religion Information Sheet for entry in 2018

While Theology is an ancient intellectual discipline, no one can doubt the continuing and momentous social significance of theology and religion around the world today. Study of the subject provides both an understanding of the intellectual underpinning of religious traditions, and of the social and cultural contexts for religious belief and practice. In order to engage fully with the questions raised by the critical study of Theology and Religion you will be required to become something of a historian and a philosopher, a textual and literary critic, and a linguist. To be able to employ these disciplines effectively will not only make you a scholar of religion but equip you to embark on a wide range of careers.

Oxford has been at the very heart of religious debate, reform and turmoil in the British Isles for eight centuries so that the faculty here wears a mantle of history not available in most other universities. At the same time Theology and Religion at Oxford is embracing wholeheartedly the challenges of the 21st century with the opportunity to study all the major world religions and their primary languages. Students can also explore the relationship between religion and science, and the place of religious ethics in public life.

The Faculty of Theology and Religion has more than 100 members ranging from experts in the ancient languages and literature of the world's religions to church historians and systematic theologians. Its reputation and excellent library facilities attract scholars from all over the world as visiting lecturers.
