

## IT tools to help you study effectively and efficiently: Introduction to Assistive Technology

A series of one-hour taster sessions will run in Hilary term 2017 to introduce key assistive technology and apps to help with your work and study. Sessions will include tools to help with planning and organisation, reading, and writing.

Sessions are free and open to all students. Staff are welcome to attend. The course will be particularly beneficial for students with disabilities, and includes students with specific learning difficulties and mental health conditions.

Sessions are identical and will take place at IT Services, 13 Banbury Road and can be booked through IT Services at [courses.ox.ac.uk](http://courses.ox.ac.uk) by searching under 'IT tools to help you study effectively and efficiently'.

- 12:30–13:30, Friday 27 January (Week 2) [BOOK](#)
- 12:30–13:30, Wednesday 8 February (Week 4) [BOOK](#)
- 17:30–18:30, Wednesday 22 February (Week 6) [BOOK](#)

For disabled students registered with the [Disability Advisory Service \(DAS\)](#), a follow up 1:1 session can be arranged to get you set up with the software. For more details contact [disability@admin.ox.ac.uk](mailto:disability@admin.ox.ac.uk)

In addition, there will be a session on My Study Bar ([BOOK](#)), which is a free floating toolbar to support literacy (Eduapps.org). This session will take place on 22 February 2017 at 14:00 (£30) and will explore some of the text to speech, screen masking and mind mapping applications that are part of MyStudyBar and which help to make electronic text or information more accessible to users.
