

Course Information Sheet for entry in 2016-17

DPPhil in Classical Languages and Literature

About the course

The DPhil is a research degree awarded on the basis of a doctoral thesis of up to 100,000 words. As a doctoral student in Classical languages and literature at Oxford, you may offer a thesis on almost any aspect of Greek and Roman literature from Homer to the contemporary reception of classical culture.

As you embark on a research degree in a humanities subject at Oxford you are assigned a supervisor, who will guide and support you through your research. You are also assigned a college adviser, whose main role is to provide pastoral care and support. In addition, training and support in developing subject-specific research skills and for personal and professional development are provided by the faculty, the Humanities Division, IT Services, the Bodleian Libraries and the Careers Service.

The choice of a thesis subject and title is normally the result of a process of discussion in which you and your supervisor play a joint role. Relatively few titles are directly assigned by supervisors. Supervisors usually prefer to make suggestions in the light of your interests, temperament and style of work, as these become clearer. The title should emerge by progressive definition over the period of probation and be put forward in time for the Graduate Studies Committee to give it proper consideration.

The supervisor will be drawn from the Oxford Classics Faculty. In the 2014 Research Excellence Framework exercise, the faculty presented the largest number of academics in UK Classics (71). 47% of the submission was rated 4* (World-Leading) and 34% 3* (Internationally Excellent), giving the faculty by far the highest quantity of 4* or 3* research in UK Classics.

Examples of recent DPhil thesis topics are available on the Classics website.
