

Course Information Sheet for entry in 2016-17

DPhil in Information, Communication and the Social Sciences

About the course

The DPhil (doctoral) programme in Information, Communication and the Social Sciences provides an opportunity for highly-qualified students to undertake cutting edge multidisciplinary Internet-related research.

The multidisciplinary research OII's students undertake ranges across the social sciences, with most projects falling into the following broad categories:

Internet and society

digital government and politics

information geographies and economies

science, learning and technology

Internet governance, regulation and ethics.

Over the course of this three- to four-year programme, you are expected to produce an important and original piece of scholarship that will make a significant contribution to the dynamic area of Internet research. On completion, you will have the qualities and transferable skills necessary to excel in teaching, research, policymaking or business.

OII faculty work on cutting-edge research in their fields. This innovative research is fully reflected in their teaching and supervision. As a doctoral student at the OII, you will address research questions from across the spectrum of disciplines. You will draw both on the multidisciplinary faculty and on the complementary strengths of your cohort of peers, who are building on literature from different disciplines to answer their research questions.

This system allows doctoral students to dig deeply into disciplinary questions in, for instance, politics or sociology, while also being able to place these questions into a broader picture of how the Internet can be theorized and researched.

Changes to courses

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

3 to 4 years

Annual fees for entry in 2016-2017

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£7,185	£2,933	£10,118
Overseas	£17,555	£2,933	£20,488

The fees shown above are the annual tuition and college fees for this course for entry in the 2016-17 academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or college continuation charge.

The University continuation charge, per term for entry in 2016/17, is currently £440, please be aware that this will increase annually.

For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable to non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

Additional cost information

There are no compulsory elements of this programme that entail additional costs beyond fees and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Employment

Whilst many graduate students do undertake employment to support their studies, students should remember that the OII's DPhil programme is a full-time course and limits will be imposed on the number of hours that may be worked each week. Within these limitations, many of the OII's existing DPhil students have been employed on a short or long-term basis as Research Assistants on grant-funded projects gaining valuable research experience. The OII also offers Teaching Assistant positions on the MSc degree for DPhil students who can display the appropriate skills. In addition, there are employment opportunities within the University (such as teaching, translation, and research assistance) as well as within the OII.

For full information on employment whilst on course, please see the University's Paid work guidelines.

Living costs

In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2016-17 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£265	£298	£2,384	£2,673	£3,177	£3,565
Accommodation	£469	£667	£4,221	£6,002	£5,627	£8,006
Personal items	£119	£244	£1,073	£2,187	£1,429	£2,915
Social activities	£60	£107	£539	£960	£718	£1,280
Study costs	£36	£73	£314	£661	£418	£880
Other	£19	£44	£197	£410	£265	£547
Total	£970	£1,433	£8,727	£12,894	£11,636	£17,191

When planning your finances for any future years of study in Oxford beyond 2016-17, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs.
