

## Course Information Sheet for entry in 2016-17

### DPhil in Law

#### About the course

The Doctor of Philosophy (DPhil) is the most prestigious of the Law Faculty's research degrees. It entails writing a thesis of between 75,000 and 100,000 words over a period of three, or at most four, years. The thesis must make a significant and substantial contribution to its field.

If you have not completed the MPhil in Law or MSt in Legal Research prior to starting the DPhil in Law, you will be admitted in the first instance to Probationer Research Student (PRS) status and undertake a course in legal research methods during your first year. This provides training in legal research methodology, but it will also expose you to the diversity of and intellectual challenges involved in legal scholarship and serves as a forum of peers in which you can discuss the methodological challenges involved in your own research.

In your third term, you will normally apply for transfer from PRS status to full DPhil status by submitting a research outline and a substantial piece of written work. These are assessed by two members of the Law Faculty, who will also interview you about your work. A similar exercise then takes place in your sixth term when you will apply for Confirmation of DPhil status.

After three or at most four years, you are expected to submit your final thesis. Your thesis will be read by two examiners who conduct an in-depth oral examination with the student, known as a viva voce. On the basis of their report, you will either be awarded the DPhil or referred back to make revisions to the thesis.

Throughout your studies, you will normally work with an assigned supervisor who should meet with you regularly to discuss your work and provide feedback and advice. You will also be able to take part in a range of seminar programmes and discussion groups, affording plentiful opportunities for interaction with your peers and academics working in the same or related research areas to your own.

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. There are no compulsory elements of this programme that entail additional costs beyond fees and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.
