

## Course Information Sheet for entry in 2017-18

### DPhil in Musculoskeletal Sciences

#### About the course

The DPhil in Musculoskeletal Sciences is intended to provide clinical and non-clinical graduates with a wide variety of research skills, in-depth knowledge, understanding and expertise in specific musculoskeletal-related fields of research. Furthermore, as part of your training you will be exposed to a range of topics such as critical appraisal, epidemiology and medical statistics.

Applicants are strongly advised to visit the Medical Sciences Graduate School website to help them identify the most suitable course and supervisors.

You will develop your research skills through a range of research training in your first year, including compulsory attendance at basic musculoskeletal modules and selection of three topic-related modules. You are also encouraged to work with your supervisor on your research-specific literature review and to develop a study design for your thesis within the three terms of training.

You will be required to attend and present at termly post-graduate seminars, not only to develop your presentation skills but also to benefit from the feedback, support and interaction from your University peers and senior academics. In addition the department runs weekly seminars by internal and external speakers on various clinical and non-clinical musculoskeletal topics, which will provide further opportunity for you to broaden your knowledge in the field.

You are also strongly encouraged to attend skills training courses run by the Medical Sciences Division as well as experiencing teaching/supervising final year undergraduate students, to enhance your skills.

Your attainment will be monitored regularly via:

1. completion of a termly report by you and your supervisors
2. submission of a 3,000-word report within the first four terms of training
3. confirmation of your ability to submit your thesis within the required maximum 12 terms.

Stages 1 and 2 will be assessed by independent senior academics to ensure you are provided with the necessary guidance (if required).

#### Changes to courses

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

#### Expected length of course

3 to 4 years

### Annual fees for entry in 2017-2018

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£4,195	£3,021	£7,216
Overseas	£19,335	£3,021	£22,356

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or college continuation charge.

The University continuation charge, per term for entry in 2017/18, is currently £455, please be aware that this will increase annually.

For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable to non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

### Additional cost information

There are no compulsory elements of this programme that entail additional costs beyond fees and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**

The likely living costs for 2017-18 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£250	£350	£2,250	£3,150	£3,000	£4,000
<b>Accommodation</b>	£538	£619	£4,844	£5,569	£6,459	£7,425
<b>Personal items</b>	£115	£255	£1,035	£2,295	£1,380	£3,060
<b>Social activities</b>	£40	£119	£358	£1,073	£477	£1,431
<b>Study costs</b>	£38	£83	£338	£743	£451	£991
<b>Other</b>	£22	£45	£196	£407	£261	£543
<b>Total</b>	£1,002	£1,471	£9,021	£13,237	£12,028	£17,649

When planning your finances for any future years of study in Oxford beyond 2017-18, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at [www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs).
