

## Course Information Sheet for entry in 2017-18

### DPhil in Psychiatry

#### About the course

The DPhil in Psychiatry offers you the opportunity to gain a wide range of transferable research skills alongside in-depth knowledge and expertise in one of an extensive range of research fields ranging from molecular biology to brain imaging and from behavioural research to epidemiology.

Applicants are strongly advised to visit the Medical Sciences Graduate School website to help them identify the most suitable course and supervisors.

The DPhil in Psychiatry is designed to allow you to develop the skills required to become an independent researcher, as well as acquiring expertise within a particular research area. You will have a supervisor from within the department and may have a co-supervisor/advisor from within the department or from elsewhere, such as the departments of Experimental Psychology, Clinical Neuroscience and Pharmacology and/or the Centre for Functional Magnetic Resonance Imaging of the Brain (fMRIB).

Working on a project of your own under the guidance of a supervisor provides you with a primary learning experience. You are encouraged to take advantage of the comprehensive, flexible training programme offered by the Medical Sciences Graduate School which includes general and specific research skills and more advanced academic courses.

You may also be required to undertake one or more training courses related to your area of research. In addition to this, the department organises opportunities for students to meet together and to present their research to their peers, enabling you to benefit from feedback and to begin networking with students in other research areas.

The range of research topics available to you is extensive and includes core areas of neurobiology, psychological treatments, developmental psychiatry and social psychiatry. You will be based in Oxford for the three to four years of your DPhil but you can be based elsewhere in the world during the data collection phase of your research.

Examination of a DPhil involves submission of a thesis which is examined by viva. In addition to this, there are two interim assessments of progress that you must pass. The first, transfer of status, involves the submission of a short report of progress to date and future plans for the research which is examined by viva. For the second, confirmation of status, you are required to make a brief presentation of your work including a timetable for completion of your thesis.

#### Changes to courses

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

#### Expected length of course

3 to 4 years

### Annual fees for entry in 2017-2018

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£4,195	£3,021	£7,216
Overseas	£19,335	£3,021	£22,356

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or college continuation charge.

The University continuation charge, per term for entry in 2017/18, is currently £455, please be aware that this will increase annually.

For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable to non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

### Additional cost information

There are no compulsory elements of this programme that entail additional costs beyond fees and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**

The likely living costs for 2017-18 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£250	£350	£2,250	£3,150	£3,000	£4,000
<b>Accommodation</b>	£538	£619	£4,844	£5,569	£6,459	£7,425
<b>Personal items</b>	£115	£255	£1,035	£2,295	£1,380	£3,060
<b>Social activities</b>	£40	£119	£358	£1,073	£477	£1,431
<b>Study costs</b>	£38	£83	£338	£743	£451	£991
<b>Other</b>	£22	£45	£196	£407	£261	£543
<b>Total</b>	£1,002	£1,471	£9,021	£13,237	£12,028	£17,649

When planning your finances for any future years of study in Oxford beyond 2017-18, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at [www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs).
