

## Course Information Sheet for entry in 2016-17

### DPhil in Social Policy

#### About the course

The Department of Social Policy and Intervention offers a DPhil in Social Policy and welcomes students from across the world. Research students are an important part of the department's community, and you will be fully involved and immersed in the life of the department.

The department welcomes DPhil candidates who are interested in a wide range of areas of social policy research, such as welfare systems in developed and developing countries, family and family policies, demography and social policy, with a special focus on East Asia, educational inequalities and educational policies, social inequalities and social mobility and labour market policies. This varied research portfolio is organised in two clusters: the Oxford Institute of Social Policy and Oxford Centre for Population Research.

The department's approach to graduate study emphasises your ability to work independently to explore a new line of research under an academic supervisor. Each member of academic staff has expertise in a particular area of social policy and you will only be accepted for a DPhil if there is an appropriate supervisor available.

As a doctoral student, you will be offered a unique graduate programme tailored to your individual needs. In addition to individual supervision, the department offers a large and diverse range of seminars, workshops and advanced training opportunities in order to further enhance graduate research experience.

### **Additional cost information**

Students may need additional funds available to cover the costs of carrying out fieldwork. These costs could vary considerably depending on the type of research undertaken, but might include the cost of travel, accommodation, transcription, or data purchase. Students may also wish to attend or present their work at academic conferences. The department has a fund available to which students can apply for support for both fieldwork and conference attendance costs.
