

## Course Information Sheet for entry in 2016-17

### MPhil in Economic and Social History

#### About the course

This two-year specialist programme offers a unique framework for research training in economic and social history. It offers a wide range of options and allows you to specialise in economic and/or social history, or historical demography, although the boundaries between these areas are deliberately permeable.

This course is intended to introduce you to the wide variety of methods used in the study of economic and social history, as well as to the subject itself.

The core qualifying papers provide an opportunity to evaluate a range of different approaches; they impart a common language, and create a close and friendly community, in which ideas are shared, and strong personal ties are forged, developing a community that provides a base from which to venture out and experience the other rewards of Oxford, intellectual, social, and cultural.

Teaching and examination comprises:

'What happened and why: an introduction to themes and approaches in economic and social history', a required course for all students, focusing on social sciences methodologies and approaches and taught through a series of lectures and parallel classes during Michaelmas and the first half of Hilary term;

a course in quantitative methods and computer applications for economic and social history: You will be allocated to either the standard or the advanced course, depending on your previous training. More advanced students will be able to take a quantitative methods course provided as part of the MPhil in Economics, subject to satisfying admission criteria;

four advanced papers, usually taught in small classes, mostly during Hilary term. Assessment is usually by three-hour written examination, but candidates may choose to be assessed for up to two of their advanced papers by two extended essays of up to 5,000 words each; and

a dissertation of not more than 30,000 words on a topic of your choice, approved by your supervisor, and submitted at the beginning of Trinity term in the second year of the programme.

The standard course in quantitative methods and computer applications for economic and social history is a simple and very informal introduction to elementary quantitative methods covering some of the techniques most widely used in research in the historical and social sciences and emphasizing the relevance of the historical issues. No prior knowledge of mathematics or statistical theory is expected.

The advanced course is intended for students who have already been introduced to some form of quantitative methods, with the first few sessions serving as a refresher course in elementary quantitative methods. The course aims to ensure that you are aware of the range of quantitative techniques available for analysing problems in economic and social history. You will be taught how

to use a number of popular statistical and econometric packages. Teaching sessions will involve computer classwork.

If you hope to proceed to doctoral research you will be encouraged to develop your doctoral proposal during the first few months of the second year of the course, so that you will be well placed to make doctoral applications in the spring

You should not apply to both the MSc and MPhil in this research area. Both courses have the same entry requirements.

### **Changes to courses**

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

### **Expected length of course**

21 months

### **Annual fees for entry in 2016-2017**

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£6,550	£2,933	£9,483
Overseas	£17,555	£2,933	£20,488

The fees shown above are the annual tuition and college fees for this course for entry in the 2016-17 academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

### **Additional cost information**

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**

The likely living costs for 2016-17 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£265	£298	£2,384	£2,673	£3,177	£3,565
<b>Accommodation</b>	£469	£667	£4,221	£6,002	£5,627	£8,006
<b>Personal items</b>	£119	£244	£1,073	£2,187	£1,429	£2,915
<b>Social activities</b>	£60	£107	£539	£960	£718	£1,280
<b>Study costs</b>	£36	£73	£314	£661	£418	£880
<b>Other</b>	£19	£44	£197	£410	£265	£547
<b>Total</b>	£970	£1,433	£8,727	£12,894	£11,636	£17,191

When planning your finances for any future years of study in Oxford beyond 2016-17, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at [www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs).
