

## Course Information Sheet for entry in 2017-18

### MPhil in Egyptology

#### About the course

The MPhil in Egyptology is a two-year taught graduate degree that offers a satisfying, advanced course of study in the languages, cultures, and history of ancient Egypt. While the MPhil functions as a course in its own right, it is also designed to take students to the stage where they can embark on doctoral research in Egyptology.

The MPhil in Egyptology has two paths through the curriculum. The first, Syllabus A, allows those with previous training in Egyptology to pursue their study of the subject to a higher level, to gain specialised expertise, and to begin advanced research in an area of their choice. The second, Syllabus B, enables graduates in another discipline to convert to Egyptology through a graduate level course that offers a certain amount of specialisation, including a significant element of advanced research. In both cases, syllabuses are tailored to the interests of individual students.

The study of ancient Egyptian language and textual culture lies at the heart of Syllabus B and is generally a major component of Syllabus A. The principal focus throughout is on detailed familiarity with the primary sources, studied in the original language and through the original manuscripts where possible, and with various methods and approaches. Use of a range of interpretive and analytical approaches to the primary sources is integral to the course, including, for example, historiographical and/or literary-critical frameworks; overall there is an emphasis on texts as artefacts in a material context.

The syllabus can also be designed with an archaeological and/or material-culture focus. You will have the opportunity to develop your skills in working with Egyptian artefacts from the extensive and diverse collections of the Ashmolean Museum. The MPhil dissertation, written during the second year, will give you the opportunity to identify and design your own research project and to develop advanced research skills.

Both syllabuses of the MPhil are very intensive. For example, you must treat the university vacations as integral parts of your work time and you will be expected to take relatively limited holidays. From the start of your course you should also think about whether you need to do fieldwork in Egypt or elsewhere and when this will best be done. Where possible, if you have not been to Egypt before you should ideally try to visit before the end of the course, even as a tourist.

In the second year, you should expect to spend the Easter vacation finishing your dissertation, which must be submitted half way through Trinity term. Depending on the course design, there can also be a take-home examination by the end of Hilary term of the second year. Research essays that are to be revised and assessed for another element in the course must also be completed and handed in during that term.

The final examinations are sat during and/or after the end of the term. In some cases the syllabus may be varied to enable students to take and be examined in options that are offered at the same time for other courses. Similarly, different examination provision may also be made for students who have chosen options that are offered in other departments, such as Classics or archaeology.

The number of students accepted each year for either pathway through the MPhil in Egyptology is very small. This ensures that teaching can be tailored to the research interests and training

requirements of individual students, especially for syllabus A and the second year of syllabus B. Teaching is also very much focused around small groups and one-on-one tutorials and supervisions for which small cohorts are vital. If you are in the first year of syllabus B, you will share language classes and lectures on history and culture with first year undergraduates. For either syllabus, some other classes may also be shared with undergraduates and graduates on other degrees where appropriate for your research training needs.

### **Changes to courses**

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

### **Expected length of course**

21 months

### **Annual fees for entry in 2017-2018**

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£8,715	£3,021	£11,736
Overseas	£19,335	£3,021	£22,356

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

### **Additional cost information**

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**

The likely living costs for 2017-18 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£250	£350	£2,250	£3,150	£3,000	£4,000
<b>Accommodation</b>	£538	£619	£4,844	£5,569	£6,459	£7,425
<b>Personal items</b>	£115	£255	£1,035	£2,295	£1,380	£3,060
<b>Social activities</b>	£40	£119	£358	£1,073	£477	£1,431
<b>Study costs</b>	£38	£83	£338	£743	£451	£991
<b>Other</b>	£22	£45	£196	£407	£261	£543
<b>Total</b>	£1,002	£1,471	£9,021	£13,237	£12,028	£17,649

When planning your finances for any future years of study in Oxford beyond 2017-18, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at [www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs).
