

Course Information Sheet for entry in 2017-18

MSc in Pharmacology

About the course

The aim of the MSc taught course is to provide students with the necessary training and practical experience to enable them to integrate post-genomic molecular biology with biological function.

Applicants are strongly advised to visit the Medical Sciences Graduate School website to help them identify the most suitable course and supervisors.

The course is taught over one year from October to September, comprising three 10-week terms and a fourth summer term.

The first term covers core material using lectures, seminars and practical work, and aims to ensure that all students have achieved the core knowledge of the principles and practice of pharmacology.

The second term consists of more detailed study within a series of five modules spanning pharmacology from the molecular to the organism level, combined with extensive practical work which is written up and submitted each week.

The third term is mainly taken up by research for a practical dissertation which is expected to involve four months of experimental work, extending throughout the term and into the long vacation term. The dissertation is written up and handed in to the examiners. Students also produce a poster presenting their research project which forms the basis for an oral examination.

Changes to courses

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Annual fees for entry in 2017-2018

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£6,745	£3,021	£9,766
Overseas	£18,080	£3,021	£21,101

The fees shown above are the annual tuition and college fees for this course for entry in the stated academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2017-18 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£250	£350	£2,250	£3,150	£3,000	£4,000
