

Course Information Sheet for entry in 2016-17

MSc in Social Science of the Internet

About the course

The MSc in Social Science of the Internet is highly multidisciplinary, providing students from a wide variety of backgrounds with in-depth understanding of the social science concepts, theories and methods required to undertake rigorous empirical quantitative and qualitative research and policy analysis about the Internet.

The course aims to equip you with essential theoretical tools and methodological skills. You are introduced to the empirical evidence necessary for an in-depth understanding of the role of the Internet in society, including the changing nature of governance and the theoretical, practical and ethical questions surrounding Internet use.

You will take a combination of core and option papers and produce a 10,000- to 15,000-word dissertation on a topic of your choosing based on discussions with a dissertation supervisor. The dissertation provides you the opportunity to apply the methods and approaches you have covered in the other parts of the course and carry out a substantive piece of academic research.

During Trinity term, you will attend weekly seminars where you will present and develop your dissertation research and receive feedback from fellow students and academic staff. The MSc seminars also include brief talks from academics within the OII, the University and the greater academic community across the UK.

Changes to courses

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Additional cost information

Full-time study

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Part-time study

Please note that this course requires that you attend in Oxford for teaching, and you may incur additional travel and accommodation expenses for this. Further, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Employment

Whilst many graduate students do undertake employment to support their studies, please remember that for students on the full-time arrangement of the OII's MSc course it is not recommended that students take on even part-time employment during term-time.

Within these limitations, some of the OII's existing MSc students have been employed on a short-term basis as Research Assistants on grant-funded projects, but only with the agreement of their supervisor, the MSc Course Convener and the Director of Graduate Studies.

Part-time students will often have jobs outside their studies at Oxford; part-time graduate students should ensure that any paid work does not interfere with the commitment of time required for their course, and that they have spoken with their employer to ensure that any study leave requirements may be accommodated.

For full information on employment whilst on course, please see the University's Paid work guidelines.

Living costs

The likely living costs for 2016-17 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

The fees shown above are the annual fees for this course for entry in the 2016-17 academic year; for courses lasting longer than one year, please be aware that these fees will increase annually.

Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.
