Tuition and college fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition and college fees).

## Additional cost information

You will normally be required to carry out a small fieldwork training exercise as part of the qualitative methods course. This may require a short trip out of Oxford, but usually not an overnight stay. You will need to cover any costs (eg travel) related to this training exercise, which the department estimates to range from between £20 to £100.

You are not formally required to undertake field research for your dissertation. However, if you decide to undertake fieldwork as part of your studies, you should note that you will ordinarily have to meet all the costs yourself. These costs are likely to include, but may not be limited to travel, accommodation and living expenses, insurance and, where appropriate, visa and medical fees (eg for vaccinations). Costs can vary considerably according to the duration and location of the fieldwork, but the department would generally expect the cost of such field research to range from £200 to £1,000. If you choose to collect your own data, you may also incur transcription costs. There may also be costs if you choose to acquire quantitative data from non-ESRC sources.

The department has no funds available to help with these costs.

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**
