Tuesday 4th July 2017
Programme

9.00 am	Arrival, Refreshments and Registration
9.30 am	Introduction
10.00 am	Optional STEM Seminars Choose between three seminars designed to offer you both academic interest in your subject and interesting ways to work with your STEM students on hot topics in this field. <ul style="list-style-type: none"> • (Maths Stream) Computer Science • (Physics Stream) Statistics • (Chemistry/Biology Stream) Biological Sciences
11.00 am	Optional STEM Seminars Choose between three seminars designed to offer you both academic interest in your subject and interesting ways to work with your STEM students on hot topics in this field. <ul style="list-style-type: none"> • (Maths Stream) Mathematics • (Physics Stream) Physics • (Chemistry/Biology Stream) Biochemistry
12.00 pm	Optional STEM Seminars Choose between three seminars designed to offer you both academic interest in your subject and exciting ways to work with your STEM students on hot topics in this field. <ul style="list-style-type: none"> • (Maths Stream) Engineering Science • (Physics Stream) Earth Science • (Chemistry/Biology Stream) Biomedical Science
13.00 pm	Networking Lunch
14.00 pm	Applying to Oxford Working in teaching streams, this session will introduce you to Oxford and will provide information on how to go about identifying potential candidates from your school or college cohort, using elements such as a potential candidate's GCSE profile.
15.00 pm	Mock Interviews For students applying to competitive courses and universities across the UK, interviews should be a chance to show themselves in their best light – yet they can seem nerve-wracking and mysterious. As well as the chance to see a staged interview, this session will provide a good opportunity for tutors to explain what they are really looking for.
16.00 pm	Q&A Session
16.15 pm	Conference Closes
