

## Course Information Sheet for entry in 2016-17

### PGCert in Ecological Survey Techniques

#### About the course

The Postgraduate Certificate (PGCert) in Ecological Survey Techniques is a one year, part-time course providing the knowledge, understanding and skills needed to conduct effective ecological field surveys and data analysis for a range of key taxa.

The course uses a mixture of online, face-to-face and experiential learning, including an independent field survey project, and is led by experienced academics and practitioners.

The PGCert provides the high standard of training needed to design, plan and implement effective ecological field surveys from beginning to end, including handling data and reporting results. The course supports research and professional development in the field, providing students with the skills needed to effectively assess and monitor biodiversity and ecosystems across all biomes.

The face-to-face week in September includes classroom and field work based teaching, as well as practical exercises including the use of GIS software, this is followed by core and option modules taught online and an independently-researched project with field work.

The PGCert comprises:

one core face-to-face module, 'Introduction to Ecological Survey Techniques in Oxford';

two online core modules in vegetation and in data analysis;

a choice of two out of four online option modules specialising in mammals and reptiles, birds, fish and amphibians, and invertebrates; and

a core field project.

Further details regarding the face-to-face week, online modules and field project, including indicative dates, are available on the course website.

The course is assessed on a modular basis, with assessments reflecting the learning objectives of the course. During the course, you will be required to submit:

one 2,500-word formative assignment, which will be marked with feedback but will not contribute credit towards formal course results;

four 2,000-word assignments, up to two of which may be submitted as a PowerPoint poster or slide presentation depending on which option modules are chosen (10 CATS points each); and

one 5,000-word field project and a 1000-word online journal (20 CATS points).

The course is ideal for both UK-based and international students who wish to follow a flexible programme of study leading to an Oxford qualification. A choice of modules enables students to explore areas of interest and specialism, and areas which are relevant to their professional needs.

Drawing on a rich pool of expertise, teaching is conducted by a highly knowledgeable and diverse team of practitioners and academics engaged directly with ecological issues.

The course website comprises further information on key IT requirements for undertaking the course and spotlights on past students from the course.

### **Changes to courses**

The University will seek to deliver each course in accordance with the descriptions set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

### **Expected length of course**

12 months

### **Annual fees for entry in 2016-2017**

Fee Status	Tuition fee	College fee	Total annual fees
Home/EU (including islands)	£4,660	N/A	£4,660
Overseas	£6,250	N/A	£6,250

The fees shown above are the annual tuition fees for this course for entry in the 2016-17 academic year; for courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges. College fees are not generally payable for non-matriculated courses although a small number of courses may permit college affiliation for which a charge will be made.

Tuition fees are payable each year for the duration of your fee liability (your fee liability is the length of time for which you are required to pay tuition fees).

### **Additional cost information**

Please note that this course requires that you attend in Oxford for teaching, and you may incur additional travel and accommodation expenses for this. This includes a residential session in Oxford. Further, as part of your course requirements, you may need to choose a dissertation, a field project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department to help you cover some of these expenses.

## Living costs

**In addition to your fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.**

The likely living costs for 2016-17 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£265	£298	£2,384	£2,673	£3,177	£3,565
<b>Accommodation</b>	£469	£667	£4,221	£6,002	£5,627	£8,006
<b>Personal items</b>	£119	£244	£1,073	£2,187	£1,429	£2,915
<b>Social activities</b>	£60	£107	£539	£960	£718	£1,280
<b>Study costs</b>	£36	£73	£314	£661	£418	£880
<b>Other</b>	£19	£44	£197	£410	£265	£547
<b>Total</b>	£970	£1,433	£8,727	£12,894	£11,636	£17,191

When planning your finances for any future years of study in Oxford beyond 2016-17, you should allow for an estimated increase in living expenses of 2% each year.

More information about how these figures have been calculated is available at [www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/living-costs).
