45	83.4
46	86.0
47	89.2
48	93.6
49	100.9
50	108.0

In the original TSA paper Question 25 was affected by a printing error. This question was excluded from the scoring of the test. Calibrated scores for the Problem-solving section were therefore based on 24 questions rather than 25, and the calibrated score for the test overall was based on 49 questions, rather than 50. No candidate gained or lost marks relative to any other candidate as a result of excluding this question. The error has been amended in the test paper published on the website and the scoring for the 50 item test provided.
