

Course Information Sheet for entry in 2020-21

DPhil in Biomedical Sciences (NIH OxCam)

About the course

The National Institutes of Health Oxford–Cambridge Scholars Programme (NIH OxCam) is a four-year doctoral programme. You undertake a collaborative project in biomedical research involving two supervisors - one at the NIH in Bethesda, MD and one at either Oxford or Cambridge.

The NIH OxCam doctoral programme was first established in 2001 and is primarily aimed at graduate students from the USA. You must first apply to the NIH by early December, following which interviews for admission in the following Michaelmas term (October) are held in February in Bethesda by NIH, Oxford and Cambridge University staff. The programme is highly competitive and the approximate number of places available this year is shown in the *Key Facts* section on this page. You can also apply to the NIH MD/PhD programme.

The selected students are supported financially by the NIH but are full students of the University of Oxford and normally spend half their time in the UK. At the time of selection to the programme, you will not necessarily have decided on your supervisor.

The Oxford programme is directed by Professor Sarah Rowland-Jones, and for administrative purposes all NIH-Oxford students are admitted to the Nuffield Department of Medicine (NDM). However, you can select supervisors and projects in any department at Oxford. You should explore all departmental websites to discover the full range of opportunities.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Nuffield Department of Medicine and/or closely-related departments, and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Nuffield Department of Medicine and/or closely-related departments.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

Mode of study	Full Time Only
Expected length	3 to 4 years

Costs

Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£7,970
Overseas	£26,405

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2020-21 is £508, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£270	£385	£2,430	£3,465	£3,240	£4,620
Accommodation	£630	£760	£5,670	£6,840	£7,560	£9,120
Personal items	£130	£245	£1,170	£2,205	£1,560	£2,940
Social activities	£45	£110	£405	£990	£540	£1,320
Study costs	£40	£95	£360	£855	£480	£1,140
Other	£20	£55	£180	£495	£240	£660
Total	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
