

Course Information Sheet for entry in 2022-23: DPhil in Medical Sciences

About the course

Based in the Radcliffe Department of Medicine (RDM), this DPhil research programme is aimed at basic scientists and clinicians with an interest in pursuing research in a scientific field related to medicine, particularly in cardiovascular medicine, diabetes, endocrinology and metabolism, epidemiology and clinical trials, haematology and pathology, immunology, regenerative medicine and stem cells, and acute stroke.

You will be admitted directly onto a research project with one of RDM's world-leading scientists, who will act as your supervisor. In most cases, students choose a project from our advertised project list, but in some cases students design their own project in collaboration with their proposed supervisor. In either case, you will be expected to play an active role in shaping your project over the course of the DPhil. Graduate students are a valuable part of the department and they are encouraged to be involved with the scientific and social life of the department at all levels.

Your project and development during your DPhil studies will be guided by a specialised team led by your academic supervisor.

Your training will be tailored to your particular needs, drawing from the vast range of training available at Oxford and covering both specialist scientific methods and techniques and transferable skills. Please note that there is no formal taught component of the DPhil in Medical Sciences.

Much of your training will take place in the lab, where you will be trained by your supervisor or members of the lab team in the variety of techniques and protocols used. A brief statement of the training you will receive in the lab is included in the training description of your chosen project.

As a member of the Medical Sciences Graduate School you will be entitled to enrol on courses run by the Medical Sciences Skills Training programme. You will be able to attend the wide variety of sessions covered through the MRC Weatherall Institute of Molecular Medicine (WIMM) Methods and Techniques course, and if your research is on a topic related to cardiovascular medicine you will be able to benefit from the British Heart Foundation Centre of Research Excellence hosted by the University. RDM also runs a successful mentoring scheme, which all students are encouraged to join.

Part-time study

It is possible to study for a doctorate on a part-time basis. Completing the DPhil on a part-time basis normally requires between six and eight years of study, compared with a full-time DPhil which normally takes three to four years to complete. Part-time study is not suitable for all projects and you will need to check with your supervisor that they are able to accommodate part-time study.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Radcliffe Department of Medicine and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Radcliffe Department of Medicine.

As well as your academic supervisor, students also have one or more formal co-supervisors, who can provide additional scientific and/or practical advice in their specialist areas and offer another viewpoint on the student's project. Together, they form the specialised team that will advise you on your academic progress. Most students usually meet with their supervisor about twice each term.

You will also have the support of a Graduate Advisor, the Director of Graduate Studies and the Graduate Studies Manager. All activity relating to graduate students within the department is overseen by the Graduate Studies Committee.

Assessment

All students will be initially admitted to the status of Probationer Research Student (PRS). Within a maximum of six terms as a full-time PRS student or twelve terms as a part-time PRS student, you will be expected to apply for transfer of status from Probationer Research Student to DPhil status. This application is normally made by the fourth term for full-time students and by the eighth term for part-time students.

A successful transfer of status from PRS to DPhil status will require a written report outlining your project plans and data obtained so far. Students who are successful at transfer will also be expected to apply for and gain confirmation of DPhil status to show that your work continues to be on track. This will need to be done within nine terms of admission for full-time students and eighteen terms of admission for part-time students.

Both milestones normally involve an interview with two assessors who are not directly involved in your supervision and therefore provide important experience for the final oral examination.

Full-time students will be expected to submit an original thesis of at 50,000 words after three or, at most, four years from the date of admission. If you are studying part-time, you be required to submit your thesis after six or, at most, eight years from the date of admission. To be successfully awarded a DPhil in Medical Sciences you will need to defend your thesis orally (viva voce) in front of two appointed examiners.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. These may include significant changes made necessary by a pandemic (including Covid-19), epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Expected length of course

	Full Time	Part Time
Expected length	3-4 years	6-8 years

Costs

Annual fees for entry in 2022-23

Full-time study

Fee status	Annual Course fees
Home	£8,620
Overseas	£28,560

Further details about fee status eligibility can be found on the fee status webpage (<http://www.graduate.ox.ac.uk/feestatus>).

Part-time study

Fee status	Annual Course fees
Home	£4,310
Overseas	£14,280

Further details about fee status eligibility can be found on the fee status webpage (<http://www.graduate.ox.ac.uk/feestatus>).

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2022-23 is £548, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £600 per term. Please contact your college for more details.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Part-time study

Please note that you are required to attend in Oxford for a minimum of 30 days each year, and you may incur additional travel and accommodation expenses for this. Also, depending on your choice of research topic and the research required to complete it, you may incur further additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for 2022-23 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£290	£410	£2,610	£3,690	£3,480	£4,920
Accommodation	£680	£810	£6,120	£7,290	£8,160	£9,720
Personal items	£135	£260	£1,215	£2,340	£1,620	£3,120
Social activities	£45	£120	£405	£1,080	£540	£1,440
Study costs	£45	£100	£405	£900	£540	£1,200
Other	£20	£55	£180	£495	£240	£660
Total	£1,215	£1,755	£10,935	£15,795	£14,580	£21,060

When planning your finances for any future years of study at Oxford beyond 2022-23, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of the document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
