

## Course Information Sheet for entry in 2022-23: Executive Master of Business Administration (EMBA)

### About the course

The Oxford Executive MBA is a part-time, postgraduate modular programme designed to help senior professionals realise their potential whilst delivering international general management competence to their organisations.

The programme is delivered in 14 one-week core modules plus 2-4 elective weeks depending on the four elective subjects selected. The September intake is delivered in one-week modules over 24 months and the January intake is delivered in one-week modules over 21 months. Around an additional one or two months is required to complete assessment, meaning the course length totals 26 and 24 months respectively. There is no difference in content between the two intakes.

Core modules usually start on a Monday morning and end on a Friday evening. Elective modules and the overseas module will include weekends. During module weeks it is recommended that you stay in or near to Oxford. The courses are complemented with flexible study (reading, research, writing assignments) completed away from the business school. Courses are usually delivered in person/face-to-face. Please note module one is delivered online and full in-person attendance is expected from Module 2, although two elective courses may be offered online.

The programme is made up of:

- core courses, including one overseas course that offers you a comprehensive understanding of modern business. The overseas module is adapted yearly intake to intake and is subject to change.
- elective courses including two overseas options designed to develop your individual skills and specialisations, subject to availability.
- integrative projects, the Global Opportunities and Threats (GOTO) project and the Entrepreneurship Project, both done in teams, which draw together and apply themes and topics studied on the programme.

Throughout the programme, there will be a focus on leadership development including group and individual coaching sessions as well as sessions and workshops from the Career Development Team.

Saïd Business School's virtual learning platform and networks enable remote users to retrieve material for courses and project work, and access the library's electronic resources including programme reading lists and a collection of business intelligence databases.

Please note that this course is paperless. This means that paper handouts will not be provided for most of your courses. Most of the presentations and readings will be uploaded to our virtual learning environment. For pedagogical reasons this may be in advance of, just before or immediately after teaching sessions. Handouts will be provided for certain courses based on specific requirements, eg unreliable internet availability
