

Course Information Sheet for entry in 2020-21

MPhil in Sociology and Demography

About the course

The MPhil introduces students to contemporary theories and research methods on the intersection of sociology and demography. This advanced 21-month programme takes a life-course and multilevel approach, aiming to integrate micro and macro issues in analysing social problems and the causes and consequences of population change.

The MPhil will provide you with a solid foundation for a wide range of careers, including those in academia, preparing you for doctoral work in sociology and demography and research-intensive jobs.

The curriculum emphasises:

- population-level analysis and demographic measures
- a life course approach
- sociological analysis as the key approach to explanation
- advanced quantitative methods.

This emphasis is reflected in the compulsory papers. Optional papers and the thesis will reflect either a more specialised topic (eg gender, family and fertility, migration and integration of migrants, health and mortality, intergenerational relationships) or methodological work.

The MPhil programme has the following components:

- Sociological Analysis paper taught in the first year through lectures and seminars, assessed by an unseen examination
- Demographic Analysis paper taught in the first year through lectures, seminars and computer labs, assessed through a combination of examination and assignments
- Life Course Research paper taught in the first year through lectures, seminars and computer labs, assessed through a combination of methods
- Statistical Methods paper taught in the first year through lectures and computer labs, assessed through a combination of a test and assignments
- Research Design paper taught in the first year through lectures, assessed via a combination of methods
- two optional papers over both years of the MPhil, normally taught through eight weekly classes/seminars for each paper and assessed by unseen examination or appropriate coursework
- Replication project in the second year, comprising a combination of individual and group work and assessed via assignments
- MPhil thesis, a new and substantial analysis of up to 30,000 words on a sociological and/or demographic topic, to be submitted by the end of the second year

Please note that the optional papers available may vary from year to year. More information on course modules and structure is available in the course handbook.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Department of Sociology and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Department of Sociology.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

Mode of study	Full Time Only
Expected length	21 months

Costs

Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£13,075
Overseas	£23,505

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, insurance, research expenses and field trips. There may also be costs if you choose to acquire data. You will need to meet these additional costs, although you may be able to apply for small grants from your college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£270	£385	£2,430	£3,465	£3,240	£4,620
Accommodation	£630	£760	£5,670	£6,840	£7,560	£9,120
Personal items	£130	£245	£1,170	£2,205	£1,560	£2,940
Social activities	£45	£110	£405	£990	£540	£1,320
Study costs	£40	£95	£360	£855	£480	£1,140
Other	£20	£55	£180	£495	£240	£660
Total	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
