

## Course Information Sheet for entry in 2020-21

### MSc by Research in Musculoskeletal Sciences

#### About the course

The MSc by Research in Musculoskeletal Sciences is intended to provide clinical and non-clinical graduates with a wide variety of research skills, in-depth knowledge, understanding and expertise in specific musculoskeletal-related fields of research. As part of your training on the course you will be exposed to a range of topics, such as critical appraisal, epidemiology and medical statistics.

You will develop your research skills through a range of research training in your first year, including compulsory attendance to core subjects with lectures on a variety of topics such as an introduction to “pathophysiology of musculoskeletal disorders, epidemiology, basic immunology, clinical trials and rehabilitation” and selection of three topic-related modules. Attendance on a two-day statistical course is compulsory to assist you with appropriate research design. You are also encouraged to work with your supervisor(s) on your research-specific literature review and to develop a study design for your thesis within the first term of your research training.

You will be required to attend and present at graduate seminars, not only to develop your presentation skills but also to benefit from the feedback, support and interaction from their University peers and senior academics. In addition the department runs regular seminars by internal and external speakers on various clinical and non-clinical musculoskeletal topics, which will provide further opportunity for you to broaden your knowledge in the field.

You are also strongly encouraged to attend skills training courses run by the Medical Sciences Division as well as experiencing teaching/supervising final year undergraduate students, to enhance your skills.

Your attainment will be monitored regularly via:

1. completion of termly reports by you and your supervisor(s) through Graduate Supervision Reporting (GSR);
2. completion of a 500-word report, presentation and viva before the end of your fourth term; and
3. confirmation of your ability to submit your thesis within the required maximum nine terms.

Step 2 will be assessed by independent senior academics to ensure you are provided with the necessary guidance (if required).

#### Supervision

The allocation of graduate supervision for this course is the responsibility of the Medical Sciences Division and the Nuffield Department of Orthopaedics, Rheumatology and Musculoskeletal Sciences (NDORMS) and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Medical Sciences Division.

In the case of students who require specific help to adjust to an academic programme or to a new range of skills, the supervisor will work with them to ensure that they have additional support.

#### Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

#### Expected length of course

<b>Mode of study</b>	Full Time Only
<b>Expected length</b>	1 to 3 years

## Costs

### Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£7,970
Overseas	£26,405

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2020-21 is £508, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £400 per term. Please contact your college for more details.

### Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£270	£385	£2,430	£3,465	£3,240	£4,620
<b>Accommodation</b>	£630	£760	£5,670	£6,840	£7,560	£9,120
<b>Personal items</b>	£130	£245	£1,170	£2,205	£1,560	£2,940
<b>Social activities</b>	£45	£110	£405	£990	£540	£1,320
<b>Study costs</b>	£40	£95	£360	£855	£480	£1,140
<b>Other</b>	£20	£55	£180	£495	£240	£660
<b>Total</b>	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).
