

Course Information Sheet for entry in 2021-22: MSc in Applied Landscape Archaeology

About the course

This two year part-time Master of Science (MSc) course is concerned with the theories and methods of landscape archaeology. The course is intended for those with a degree (undergraduate or postgraduate) or an advanced diploma in archaeology or a related subject.

This MSc is a part-time modular course over two years, leading to a University of Oxford graduate degree in archaeology. The course is designed for the needs of students who wish to study part-time, and this includes those who are in full-time employment. Those with a personal or professional interest in landscape archaeology are welcome to apply.

Landscape archaeology is an increasingly popular and widely understood concept. Using a multi-period approach, it is concerned with understanding past human impacts on the resources, topography and environment of the whole landscape, from uplands to coasts, and from farmed landscapes to urban/industrial areas.

Many newer methods of research are being developed in landscape archaeology, including digital mapping and geophysics. These are taking their place alongside field-walking, historic landscape analysis, aerial photography and selective excavation to provide a flexible and effective armoury of techniques for the researcher. Skills such as survey and characterisation are becoming essential for anyone involved in the management of the historic environment. Effective communication of the value and potential of the historic landscape is vital in the world of planning, tourism, outreach and education.

The course involves a combination of academic study and field practice. It is designed to appeal to those who already have experience of studying archaeology (or a closely-related subject) at undergraduate or postgraduate level and who wish to expand their academic, practical and professional skills in landscape archaeology.

With a strong (but not exclusive) emphasis on the archaeology of Britain in our teaching, the course focuses on the applications of research methods in varying landscape situations. The course format is flexible and enables students to pursue their own research interests leading to a 15,000-word dissertation. This can be on a theme, area or subject in Britain or elsewhere.

The course is taught using a combination of lectures/seminars in Oxford, field visits and practical work, supported by tutor contact and information supplied via a Virtual learning Environment (VLE) which can be accessed at any time. The majority of teaching takes place on Saturdays, normally between 10am and 4pm. There is a landscape survey training week in the early summer of Year B, which requires attendance over seven days (Saturday to Friday). Self-study in libraries or at home will form a major part of your experience on the course. Many students undertake some fieldwork during their time on the course. Dissertations are supported through personal tutorials with the course director and/or your dissertation tutor.

Supervision

For this course, the allocation of graduate supervision is the responsibility of the Department for Continuing Education and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Department for Continuing Education.

The Course Director acts as academic supervisor for all students over the two years. A dissertation tutor will also be appointed at the appropriate time in the course when your topic is approved (usually early in the second year). This may be the Course Director, or another of the course teaching team.

Assessment

The course is assessed through a series of written assignments and a practical log-book. Two Core Papers (taught in Term 1 in each year) have two 2,500-word written assignments, and four advanced papers (taught in Terms 2 and 3 in each year) have one 5,000-word written assignment each. (Where an optional flexi-placement is taken, this results in a 5,000 word assignment which replaces one of the advanced papers). The landscape survey training week has a 2500-word practical log book, and there is a 15,000-word dissertation. All students are required to attend an oral examination (viva voce) at the end, in order to pass the course.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. These

may include significant changes made necessary by a pandemic (including Covid-19), epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Expected length of course

	Part Time Only
Expected length	2 years

Costs

Annual fees for entry in 2021-22

Fee status	Annual Course fees
Home (UK, Republic of Ireland, Channel Islands & Isle of Man)	£4,144
Overseas (including EU)	£10,878

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

This course has residential sessions in Oxford. You will need to meet your travel and accommodation costs in attending these sessions. Further, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for 2021-22 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs for 2021-22

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£280	£400	£2,520	£3,600	£3,360	£4,800
Accommodation	£655	£790	£5,895	£7,110	£7,860	£9,480
Personal items	£130	£250	£1,170	£2,250	£1,560	£3,000
Social activities	£45	£115	£405	£1,035	£540	£1,380
Study costs	£45	£100	£405	£900	£540	£1,200
Other	£20	£55	£180	£495	£240	£660
Total	£1,175	£1,710	£10,575	£15,390	£14,100	£20,520

When planning your finances for any future years of study at Oxford beyond 2021-22, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of the document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
