

Course Information Sheet for entry in 2020-21

MSc in Archaeology

About the course

The MSc in Archaeology provides an opportunity for students to build on their knowledge from undergraduate studies and to specialise in a particular area of archaeology, while also offering an excellent foundation for those wishing to continue towards research at doctoral level. It also offers transferable skills which are beneficial to a range of professional roles.

During the 11-month taught degree you will specialise in a particular area of archaeology, and will follow one of a number of subject streams:

- Archaeology of Asia
- Medieval Archaeology
- Prehistory and Pre-colonial Archaeology
- Environmental Archaeology
- Landscape Archaeology
- Maritime Archaeology
- Theoretical Archaeology

Each stream comprises four modules and a dissertation.

The core module 'Archaeological Principles: Data and Theory', which all students take in the first term, is designed to prepare you with necessary archaeological knowledge, research and practical skills to support your other modules and dissertation.

You will take two core modules offered within your stream, one taught in the first term, and the other taught in the second term.

The fourth module is your option module, also taught in the second term. This is chosen from all available modules in any stream, or an option from the MSt in Classical Archaeology. In some circumstances a subject taught in the MSc in Archaeological Science may be taken as your option module and is taught over two terms.

You will complete a dissertation of 15,000 words on an approved topic relevant to your stream subject, chosen in consultation with a supervisor. Most of the dissertation research and writing takes place in the third term and into the summer.

The MSc in Archaeology allows subject specialisation, but also flexibility, by combining core modules with your option module, and topics chosen for your dissertation and summative pre-set essays. The dissertation allows you to develop a larger piece of research in which you can more fully explore a topic. It will allow you to develop your research skills and undertake self-directed and independent research that is a necessary basis for future doctoral research, and highly desirable in non-academic employment.

Teaching and learning

Teaching of stream modules is mainly through a combination of lectures and tutorials which are normally taught in small-groups of one to five students. Other teaching methods may also include seminars, museum-based classes, laboratory work or other practicals, depending on your stream and module choices. You will usually prepare formative assignments on a weekly or fortnightly basis for your modules. The core Archaeological Principles module is taught by lectures and seminars and will include group work; the assignments given in this module will form the basis of an assessed portfolio.

You will have a dissertation supervisor who, during your supervision meetings, will discuss and guide your research. They will usually be one of the teachers in your subject stream.

The teaching methods provide you with the opportunity to debate and discuss essays and topics on a regular basis with other students and teachers. Your assignments will also allow you to develop your writing and presentation skills. The seminars, museum-based classes, laboratory work and practicals provide an arena for you to engage with and develop techniques of analysis and evaluation.

You will have an academic advisor in your subject stream who will advise on module choices and monitor overall progress.

The teaching is supplemented by a wide range of lecture courses, seminar series, and the Graduate Archaeology at Oxford skills seminar series available in the School of Archaeology.

Each member of the academic staff in archaeology normally offers at least one module in his or her areas of specialism over the year, but some modules or streams listed may not be available every year.

Assessment

- The 'Archaeological Principles' option is assessed by a portfolio of work
- Subject stream core option 1 is assessed by a three-hour written examination in the second term
- Subject stream core option 2 is assessed by two 5,000-word pre-set essays submitted in the third term
- The option course is assessed by two 5,000-word pre-set essays submitted in the third term.
- A dissertation of 15,000 words is submitted in late August.

Supervision

For this course, the allocation of graduate supervision is the responsibility of the School of Archaeology and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the School of Archaeology.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

Mode of study	Full Time Only
Expected length	11 months

Costs

Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£13,075
Overseas	£23,505

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£270	£385	£2,430	£3,465	£3,240	£4,620
Accommodation	£630	£760	£5,670	£6,840	£7,560	£9,120
Personal items	£130	£245	£1,170	£2,205	£1,560	£2,940
Social activities	£45	£110	£405	£990	£540	£1,320
Study costs	£40	£95	£360	£855	£480	£1,140
Other	£20	£55	£180	£495	£240	£660
Total	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
