

Course Information Sheet for entry in 2019-20

MSc in Clinical and Therapeutic Neuroscience

The MSc taught course in Clinical and Therapeutic Neuroscience is a one-year course designed to equip students with the transferable skills required for a career in translational (“cell to patient”) research. The course will offer you insights into a range of fields including molecular biology, brain imaging, behavioural research and epidemiology. It is delivered by pre-clinical and clinical research teams based in the Department of Psychiatry, in other University of Oxford centres within the neuroscience community, and in the NIHR Oxford Cognitive Health Clinical Research Facility.

The course will provide you with:

- a broad knowledge of neuropsychiatric and neurological disorders and their current treatments and management;
- direct experience in integrative, multidisciplinary and novel pre-clinical and clinical research investigation for treatment discovery;
- an ability to critically appraise research methods and experimental results;
- familiarity in conceptualising and designing experimental protocols and clinical trials for drug/treatment discovery;
- an opportunity to communicate research results and their clinical implications to a wide audience.

The course will be delivered through a range of methods, including lectures, seminars, student presentations, self-directed learning and study. You will participate in small group teaching and develop close working relationships with academic and project supervisors. In addition to this, practical classes will enable you to acquire analytical skills required for the processing of structural biology, brain imaging and clinical trial data.

Course assessments are based on four essays, two 6,000 word dissertations and an oral poster presentation. The dissertations are based two 12-week projects, one completed in the second term and the other in the third term. You will be provided with a list of topics, some laboratory- and some clinic-based, and will have the opportunity to consult with project supervisors and submit a list or preferred topics.

You are advised to visit the Department of Psychiatry website to obtain further information on the course.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

1 year

Costs

Annual fees for entry in 2019-20

Fee status	Annual Course fees
Home/EU (including Islands)	£7,730
Overseas	£22,600

The fees shown above are the annual course fees for this course, for entry in the stated academic year.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional information section below, course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information below.

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. For details, please see our guidance on likely increases to fees and charges.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, it is possible that you may incur additional expenses. You would need to meet those additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2019-20 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£265	£371	£2,387	£3,342	£3,183	£4,456
Accommodation	£566	£739	£5,093	£6,655	£6,790	£8,874
Personal items	£122	£271	£1,098	£2,435	£1,464	£3,246
Social activities	£42	£126	£380	£1,138	£506	£1,518
Study costs	£40	£88	£359	£788	£478	£1,051
Other	£23	£48	£208	£432	£277	£576
Total	£1,058	£1,643	£9,525	£14,790	£12,698	£19,721

When planning your finances for any future years of study at Oxford beyond 2019-20, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
