

Course Information Sheet for entry in 2022-23: MSc in Integrated Immunology

About the course

The MSc in Integrated Immunology is designed to present immunology within the broader context of the basic sciences and biomedicine. Both the fundamental (basic) and clinical (applied) aspects are explored in depth and breadth, and integrated with relevant areas of other disciplines such as molecular cell biology, genetics and clinical trials, together with continuing professional development.

The University of Oxford is a world leader in immunology. This means that you will be taught by leading academics in immunology throughout the first two terms of the MSc, and that you will undertake your third term project in a top-ranked research department.

The MSc in Integrated Immunology course provides comprehensive and in-depth training in immunology for science and medical postgraduates. It is a 12-month, full-time course comprising two taught terms followed by a 14-week laboratory-based research project within a University of Oxford laboratory. The first taught term focuses on the fundamental science of immunology, while the second explores the clinical and therapeutic aspects of immunology. The MSc course is not modular, ie all teaching elements are compulsory for all students and there are no options for students to choose.

Each of the two taught terms is 11 weeks in duration with nine weeks for classroom-based teaching, one for revision and one for examination. An average teaching week comprises approximately seven lectures, each lecture being 60 to 90 minutes in duration. In addition there are tutorials and problem based learning sessions. Continuing professional development classes, including presentation and IT skills, statistics, ethics and clinical trial methodologies, take place throughout both taught terms. Students are expected to treat their studies as a full-time occupation of at least 40-hours per week. Self-directed study should be undertaken to complement structured teaching, and the balance of these is usually 50/50.

In the third term you will undertake an original, supervised research project to gain an understanding of research techniques in immunology or a related area. Research supervisors provide regular supervision and guidance during the course of the research project, and students are normally expected to work on their projects during core working hours during the week, or as agreed with their supervisor.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Nuffield Department of Surgical Sciences and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Nuffield Department of Surgical Sciences.

The Course Director will be your primary supervisor throughout the course and typically has close contact with the class during the first two terms, and meets regularly with students to discuss their progress. In the third term day-to-day supervision is devolved to the project supervisor, however the Course Director remains available to meet with students should they wish to.

Assessment

At the end of each taught term, you will take a computer-based examination to test core knowledge. Further elements of the overall assessment are a critical essay in the first term, a set of clinical case commentaries in the second term, and a research dissertation in the third term. Detailed assessment instructions and marking criteria will be provided at the beginning of each term.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. These may include significant changes made necessary by a pandemic (including Covid-19), epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Expected length of course

	Full Time Only
Expected length	12 months

Costs

Annual fees for entry in 2022-23

Fee status	Annual Course fees
Home	£9,340
Overseas	£42,120

Further details about fee status eligibility can be found on the fee status webpage (<http://www.graduate.ox.ac.uk/feestatus>).

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2022-23 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£290	£410	£2,610	£3,690	£3,480	£4,920
Accommodation	£680	£810	£6,120	£7,290	£8,160	£9,720
Personal items	£135	£260	£1,215	£2,340	£1,620	£3,120
Social activities	£45	£120	£405	£1,080	£540	£1,440
Study costs	£45	£100	£405	£900	£540	£1,200
Other	£20	£55	£180	£495	£240	£660
Total	£1,215	£1,755	£10,935	£15,795	£14,580	£21,060

When planning your finances for any future years of study at Oxford beyond 2022-23, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of the document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
