

Course Information Sheet for entry in 2020-21

MSc in Psychological Research

About the course

The MSc in Psychological Research is a one-year taught master's course. The course provides a broad-based research training programme in psychology, covering theory and methods in core domains of psychology reflecting particular research strengths within the department. Hands-on research training within the core research themes of the department is also provided.

The broad-based research training programme covers:

- behavioural neuroscience, from animal models to human functional imaging and TMS
- cognitive neuroscience, including MEG, EEG, neuropsychology
- developmental science, comprising Babylab studies and studies with children with developmental disorders
- social psychology and psychological disorders, focusing on inter-group behaviour, emotion, anxiety and post-traumatic stress

The course contains 9 modules which are taught at the University of Oxford. You will be required to pass 8 modules and the research project to be awarded the MSc. The course is taught through the attendance of seminars, lectures and workshops with some of the modules spanning two terms. The five core modules currently comprise:

- Research Evaluation
- Project Design
- Statistical Theory and Methods
- MATLAB Programming for Experimental Psychology
- Philosophical Foundations of Psychology

You will also undertake three of the four available optional modules, currently comprising:

- Emotion, Personality and Social Behaviour
- Language and Development
- Brain and Cognition
- Computer Modelling of Brain Function

The modules are assessed via written submissions, examinations and presentations. You will complete a research project consisting of a 10,000-word dissertation, submitted at the end of the course.

You are individually supervised for your research project and you will work on this project (dissertation) throughout the academic year. You will also meet with your academic advisors on an individual basis.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Department of Experimental Psychology and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Department of Experimental Psychology.

In the case of students who require specific help to adjust to an academic programme or to a new range of skills, the MSc Course Director and/or the Academic Advisers will work with them to ensure that they have additional support.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

Mode of study	Full Time Only
Expected length	12 months

Costs

Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£7,970
Overseas	£23,505

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£270	£385	£2,430	£3,465	£3,240	£4,620
Accommodation	£630	£760	£5,670	£6,840	£7,560	£9,120
Personal items	£130	£245	£1,170	£2,205	£1,560	£2,940
Social activities	£45	£110	£405	£990	£540	£1,320
Study costs	£40	£95	£360	£855	£480	£1,140
Other	£20	£55	£180	£495	£240	£660
Total	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
