

## Course Information Sheet for entry in 2020-21

### MSc in Sustainable Urban Development

#### About the course

The two-year MSc in Sustainable Urban Development will provide a rigorous and critical understanding of the policy and practice of sustainable urban development. The course exposes students to sustainable urbanism as both an interdisciplinary and multidisciplinary subject at global and local scales.

Attention is paid to the intellectual history of sustainable urban development, its current and future applications and practice, and the contemporary relevance of research to sustainable urban policy and practice across cities of the Global North and South.

The programme attracts a lively and engaged group of students, who combine postgraduate study with their professional lives, and an active alumni network. Students on the course typically come from a wide international background and share a variety of work experiences in urban development and the built environment.

The MSc is designed for those operating in a range of urban contexts worldwide - public, private or third sector organisations - and fosters collaboration, creativity, perspective-sharing and effective networking skills. The MSc runs in partnership with the Prince's Foundation and is an accredited course within the Royal Institution of Chartered Surveyors (RICS) University Partnership.

The course is delivered by University academics, industry experts, urban researchers and practitioners in the built environment. Regular contributors include the International Institute for Environment and Development and the University's Transport Studies Unit.

#### Structure

You will attend eight intensive residential teaching weeks during the two years of study, primarily held in Oxford at the Department for Continuing Education. However, all modules (including teaching weeks, tutorials, seminars and other teaching events) taking place in Michaelmas Term 2020 will be delivered online rather than face-to-face, with a review in time for Hilary and Trinity terms.

Each teaching week addresses a core theme of the course.

In the first year, you will study five interdisciplinary and multidisciplinary teaching weeks:

- Introducing Sustainable Urban Development
- Climate Change and the Built Environment
- Place-making and Urban Design
- Financing Sustainability
- Sustainable Transport

During teaching weeks, you will also follow foundation courses in urban theory and research methods tailored to sustainable urban development, comprising sessions on the intellectual history of sustainable urbanism, paradigm shifts and challenges in sustainable development, urban economics, research design, research ethics and preparation, bibliography and library resources.

In the second year, you will study three interdisciplinary and multidisciplinary teaching weeks:

- Urbanism, Community and City-Building
- Urbanisation in the Global South
- Leadership, Governance and Future Cities

You will spend the latter half of the second year working on a 15,000-word dissertation. You will choose the topic, with the guidance of your supervisor, and, in most cases, spend time doing fieldwork and gathering data during this period. More information can be found in the Course Handbook.

#### Teaching

The course is delivered through a mix of tailored teaching and learning methods, including seminars, site visits, peer-review, research workshops and individual tutorials. Classes are seminar-based, encouraging active participation and enabling students to learn from each other. You will prepare for sessions by reading a selection of recommended books, book chapters and articles. Typically, there are six to eight weeks between each teaching week, during which time you should expect to spend an average of 15 hours per week of independent study.

You will be allocated a course tutor who will support your academic development, and with whom you will meet during each

<https://www.ox.ac.uk/students/new/contract/graduate-course-information-sheets/2020-21-entry>

teaching week for a tutorial. In the second year, you will be allocated a dissertation supervisor. You will also have a college advisor whom you may consult on issues concerning your personal wellbeing.

### **Assessment**

For each teaching week, you will complete an essay of up to 3,000 words on that theme. The first essay is formative and will provide you with valuable feedback at the start of your studies. The remaining seven essay assignments are summative.

You will also submit a research dissertation of up to 15,000 words. It is expected that you will define your own dissertation topic in consultation with your allocated supervisor. Training in research skills is built into the course delivery, in order to help you make the most of this opportunity.

### **Supervision**

The allocation of graduate supervision for this course is the responsibility of the Department for Continuing Education and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Department for Continuing Education.

### **Changes to courses**

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

### **Expected length of course**

<b>Mode of study</b>	Part Time Only
<b>Expected length</b>	2 years

## Costs

### Modular course fees

The fees for this course are charged on a modular basis. You will pay an annual course fee and an additional fee for each module studied. A minimum of two annual course fees are payable for this course. If this course includes a dissertation, three module fees will be charged for the dissertation.

#### Fees for the 2020-21 academic year

Fee status	Annual Course Fee	Fee per module	Total estimated fees
Home/EU (including Islands)	£8,780	£1,930	Please see the department's website for further details
Overseas	£8,780	£1,930	

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

### Additional cost information

This course has residential sessions in Oxford. You will need to meet your travel and accommodation costs in attending these sessions. Further, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

## Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
<b>Food</b>	£270	£385	£2,430	£3,465	£3,240	£4,620
<b>Accommodation</b>	£630	£760	£5,670	£6,840	£7,560	£9,120
<b>Personal items</b>	£130	£245	£1,170	£2,205	£1,560	£2,940
<b>Social activities</b>	£45	£110	£405	£990	£540	£1,320
<b>Study costs</b>	£40	£95	£360	£855	£480	£1,140
<b>Other</b>	£20	£55	£180	£495	£240	£660
<b>Total</b>	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).
