

Course Information Sheet for entry in 2020-21

MSt in Philosophy of Physics

About the course

This one-year, full-time taught graduate course offers graduate education in philosophy of physics of the highest possible quality, and aims to provide a foundation on which you can go on to pursue doctoral work in the area. It is likely to be of particular interest for candidates whose background is in physics and/or mathematics rather than in philosophy and it presumes an undergraduate-level education in physics. This course is not available in part-time mode of study and is not offered via distance learning.

This course consists of core courses in the philosophy of physics, the philosophy of science and one elective subject. You are examined on the basis of four essays. Tuition is offered in the form of supervisions, lectures and classes.

Please note that this course is not a research degree.

Philosophy of physics

During the first two terms, you will attend the undergraduate lecture course in Intermediate Philosophy of Physics, participate in a dedicated graduate class in Advanced Philosophy of Physics, and will receive supervisions with (an) expert(s) in the field.

Supervisions are usually around two hours long, on a subject to be chosen by you in consultation with your supervisor, normally on an issue arising out of classes and lectures.

You will write an essay for each supervision, and discussion of this essay will form the basis of the supervision.

This subject is examined by two essays, each of no more than 5,000 words, to be written over the Easter vacation, on topics that will be prescribed by the examiners. At most one essay may fall under each of the following subjects:

- the philosophy of quantum theory
- the philosophy of space, time and symmetry
- the philosophy of statistical mechanics and thermodynamics
- other topics in the philosophy of physics (previous topics have included black hole thermodynamics and the black hole information paradox).

Philosophy of science

You will attend the undergraduate lecture courses in the philosophy of science and the graduate class in philosophy of science and receive supervisions. This subject is examined by one essay of no more than 5,000 words on a topic of your own choosing, but excluding topics specifically in the philosophy of physics (as specified above).

Elective subject

You will study one of the following subjects:

- metaphysics and theory of knowledge
- philosophy of mind and action
- philosophical logic and philosophy of language
- philosophy of mathematics

You will attend the graduate class in the elective subject and receive supervisions. This subject is examined by one essay of no more than 5,000 words on a topic of your own choosing.

In completing the course, it is expected that you will have:

- pursued a course requiring a high standard in each of the three examined elements, ie philosophy of physics, philosophy of science and an elective subject;
- studied these subjects through supervisions with an expert supervisor and via classes convened by an expert or experts in the relevant field;
- been examined on your chosen areas by a requirement to write four essays of no more than 5,000 words each;
- had many opportunities to hear and participate in philosophy and philosophy of physics, by attending an annual Graduate Philosophy Conference, talks by invited speakers, philosophy societies and discussion groups, and especially by attending the philosophy of physics research seminars and graduate philosophy of physics discussion classes; and
- been a member of a college graduate community, associating with graduates from many countries, cultures, and academic disciplines.

The course has no fieldwork, industrial placement or year abroad element, but you may decide to attend conferences, workshops or research training elsewhere.

You may also attend any undergraduate and graduate classes, seminars and lectures in and outside of the Faculty of Philosophy which are of interest to you, provided those classes, seminars and lectures are open to you.

Supervision

The allocation of graduate supervision for this course is the responsibility of the Faculty of Philosophy, and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Faculty of Philosophy.

Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

Expected length of course

Mode of study	Full Time Only
Expected length	9 months

Costs

Annual fees for entry in 2020-21

Fee status	Annual Course fees
Home/EU (including Islands)	£13,075
Overseas	£26,405

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Additional cost information

The Philosophy Graduate Studies Committee has a research and travel fund for graduate students to which students may apply for assistance with, for example, the costs of attending conferences or workshops. BPhil and MSt students may only apply for funding if they are presenting a paper. Probationary Research Students and DPhil students are entitled to apply for funding to attend a workshop, conference, etc, whether or not they are presenting a paper.

There are no compulsory elements of this course that entail additional costs beyond fees and living costs. However, as part of your course requirements, you may need to choose a dissertation, a project or a thesis topic. Please note that, depending on your choice of topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

	Likely living costs for 1 month		Likely living costs for 9 months		Likely living costs for 12 months	
	Lower range	Upper range	Lower range	Upper range	Lower range	Upper range
Food	£270	£385	£2,430	£3,465	£3,240	£4,620
Accommodation	£630	£760	£5,670	£6,840	£7,560	£9,120
Personal items	£130	£245	£1,170	£2,205	£1,560	£2,940
Social activities	£45	£110	£405	£990	£540	£1,320
Study costs	£40	£95	£360	£855	£480	£1,140
Other	£20	£55	£180	£495	£240	£660
Total	£1,135	£1,650	£10,215	£14,850	£13,620	£19,800

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.
