

## Course Information Sheet for entry in 2020-21

### PGCert in Qualitative Health Research Methods

#### About the course

The PGCert in Qualitative Health Research Methods will inspire excellence by equipping students with the skills they need to become future leaders in qualitative health research, particularly in designing, conducting and critically appraising qualitative research.

This course will suit novices to qualitative research and those who have some experience, but want to hone their skills. It is designed to suit busy professionals and full-time students alike.

The programme has teachers with significant experience in research and teaching. The flexible structure of the course has been devised to fit with the structure of specialist training and to accommodate student choice. Through face-to-face and online sessions, students will develop excellence in the design, conduct and critical appraisal of qualitative research. All sessions are led by expert tutors with significant experience in research and teaching.

The Postgraduate Certificate in Qualitative Health Research Methods is a part-time course. The course comprises three modules:

- Qualitative Research Methods
- Advanced Qualitative Research Methods; and
- Mixed Methods in Health Research.

Each module runs for eight weeks. The majority of learning is conducted online with three face-to-face teaching weeks held in Oxford. Assessments are conducted at the end of each module and comprise a written paper, submitted via an online portal.

Further details about the course modules can be found on the course page on the Department for Continuing Education website (see *Further Information and Enquiries*).

Assessment for each module will be based on a written assignment of not more than 4,000 words.

This course aims to provide holistic training in qualitative methods, developing students' ability to design, conduct and critically appraise qualitative research and their ability to engage with theory and wider debates.

By the end of this course, students will be able to:

- independently develop, design and conduct primary qualitative research, confidently adopting a flexible approach as per the philosophical underpinnings of this mode of naturalistic inquiry;
- critically reflect on their role (and the role of the research team) in the research process, appreciating the consequences this has on the research they conduct, whilst endeavouring to mitigate its impact;
- critically engage with all aspects of qualitative research, including various methodological approaches and quality appraisal; and
- critically engage with theory and wider debate in qualitative research (including on elements associated with rigour, such as critical appraisal).

This is a joint programme between the Nuffield Department of Primary Care Health Sciences and the Department for Continuing Education. The programme works in collaboration with the renowned Centre for Evidence-Based Medicine in Oxford.

#### Supervision

The allocation of graduate supervision is the responsibility of the Nuffield Department of Primary Care Health Sciences and/or the Department for Continuing Education and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the department.

#### Changes to courses

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration. For further information, please see the University's Terms and Conditions.

**Expected length of course**

|                        |                |
|------------------------|----------------|
| <b>Mode of study</b>   | Part Time Only |
| <b>Expected length</b> | 1-2 years      |

## Costs

### Modular course fees

The fees for this course are charged on a modular basis. You will pay an annual course fee and an additional fee for each module studied. A minimum of one annual course fee is payable for this course.

#### Fees for the 2020-21 academic year

| Fee status                     | Annual Course Fee | Fee per module | Total estimated fees                                    |
|--------------------------------|-------------------|----------------|---|
| Home/EU<br>(including Islands) | £6,585            | £2,000         | Please see the department's website for further details |
| Overseas                       | £6,585            | £2,000         |   |

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions.

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

### Additional cost information

This course has residential sessions in Oxford. You will need to meet your travel and accommodation costs in attending these sessions.

## Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for 2020-21 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

|                          | Likely living costs for 1 month |             | Likely living costs for 9 months |             | Likely living costs for 12 months |             |
|--------------------------|---------------------------------|-------------|----------------------------------|-------------|-----------------------------------|-------------|
|                          | Lower range                     | Upper range | Lower range                      | Upper range | Lower range                       | Upper range |
| <b>Food</b>              | £270                            | £385        | £2,430                           | £3,465      | £3,240                            | £4,620      |
| <b>Accommodation</b>     | £630                            | £760        | £5,670                           | £6,840      | £7,560                            | £9,120      |
| <b>Personal items</b>    | £130                            | £245        | £1,170                           | £2,205      | £1,560                            | £2,940      |
| <b>Social activities</b> | £45                             | £110        | £405                             | £990        | £540                              | £1,320      |
| <b>Study costs</b>       | £40                             | £95         | £360                             | £855        | £480                              | £1,140      |
| <b>Other</b>             | £20                             | £55         | £180                             | £495        | £240                              | £660        |
| <b>Total</b>             | £1,135                          | £1,650      | £10,215                          | £14,850     | £13,620                           | £19,800     |

When planning your finances for any future years of study at Oxford beyond 2020-21, you should allow for an estimated increase in living expenses of 3% each year.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).
