

PART B [50 marks] [marks taken off for missed segments, wrong lexical item, wrong word order]

The following questions are based on an invented language called Plonk. Plonk differs from English in not having definite or indefinite articles (**the** and **a**), and in not differentiating simple and progressive tenses (**is going = goes, was leaving = leaves**); it does, however, have fixed word order. Try to work out the meaning of the sentences, individual words, and their components by reading them carefully and considering the differences between similar forms. The exercises are built up gradually, so it is best to do them in order.
